

Q1.

Introduction:

COMMUNITY BENEFIT NARRATIVE REPORTING INSTRUCTIONS

The Maryland Health Services Cost Review Commission's (HSCRC's or Commission's) Community Benefit Report, required under §19-303 of the Health General Article, Maryland Annotated Code, is the Commission's method of implementing a law that addresses the growing interest in understanding the types and scope of community benefit activities conducted by Maryland's nonprofit hospitals.

The Commission developed a two-part community benefit reporting system that includes an inventory spreadsheet that collects financial and quantitative information and a narrative report to strengthen and supplement the inventory spreadsheet. The guidelines and inventory spreadsheet were guided, in part, by the VHA, CHA, and others' community benefit reporting experience, and was then tailored to fit Maryland's unique regulatory environment. This reporting tool serves as the narrative report. The instructions and process for completing the inventory spreadsheet remain the same as in prior years. The narrative is focused on (1) the general demographics of the hospital community, (2) how hospitals determined the needs of the communities they serve, (3) hospital community benefit administration, and (4) community benefit external collaboration to develop and implement community benefit initiatives.

The Commission moved to an online reporting format beginning with the FY 2018 reports. In this new template, responses are now mandatory unless marked as optional. If you submit a report without responding to each question, your report may be rejected. You would then be required to fill in the missing answers before resubmitting. Questions that require a narrative response have a limit of 20,000 characters. This report need not be completed in one session and can be opened by multiple users.

Holy Cross Health is a Catholic not-for-profit health system based in Montgomery County, Maryland that has nearly 200,000 patient visits each year. We offer a full range of inpatient, outpatient, and innovative community-based services and are the region's only four-time winner of The Joint Commission's highest quality award. Holy Cross Health has a 1,425 member medical staff, employs more than 4,100 people, has more than 600 volunteers and is the only healthcare provider in Maryland to receive the Workplace Excellence Seal of Approval Award each year since 1999 from the greater Washington, D.C., Alliance for Workplace Excellence. Holy Cross Health is comprised of Holy Cross Hospital, Holy Cross Germantown Hospital, Holy Cross Health Network and the Holy Cross Health Foundation. Holy Cross Hospital: Located in Silver Spring, Holy Cross Hospital is one of the largest hospitals in Maryland. Founded more than 50 years ago in 1963 by the Congregation of the Sisters of the Holy Cross, today Holy Cross Hospital is a teaching hospital with 395 adult licensed beds, a neonatal unit with 113 newborn bassinets, 46 neonatal intensive care unit bassinets and an on-site obstetrics/gynecology outpatient clinic for uninsured women. The hospital offers a full range of inpatient and outpatient services, with specialized expertise in senior services, women and infant services, surgery (particularly gynecological), neuroscience, and cancer. In 2015, with the largest expansion in its 50-year history, Holy Cross Hospital joined Holy Cross Germantown Hospital as the only area hospitals to offer private rooms to all patients. The new seven-story patient care building, the South Building, added 232,000 square feet to the hospital. The "green" design meets all the latest standards for sustainability and obtained Leadership in Energy and Environment Design (LEED) Gold certification. Holy Cross Germantown Hospital: In October 2014, Holy Cross Health opened Holy Cross Germantown Hospital, the first new hospital in Montgomery County in 35 years. The hospital serves the most rapidly growing region in the county and provides access to high-quality care in an area that had previously been, by far, the largest concentration of people without a hospital in the state. Holy Cross Germantown Hospital has 65 adult licensed beds and a neonatal unit with 17 newborn bassinets and eight special care nursery bassinets. The hospital offers emergency, medical, surgical, obstetric, neonatal and psychiatric care to meet a full range of community needs. All patient rooms are private to enhance patient safety and satisfaction, as well as patient, family and visitor comfort. The facility features sustainable design elements that achieved Leadership in Energy and Environmental Design (LEED) Gold certification. Holy Cross Health Network: Established in 2012, Holy Cross Health Network is an operating division within Holy Cross Health that is focused on creating the relationships and programs that will help Holy Cross Health better manage care in the communities it serves. Holy Cross Health Network operates Holy Cross Health Centers in Aspen Hill, Gaithersburg, Germantown, and Silver Spring. These primary care sites serve low-income patients who are uninsured or are enrolled in Maryland Physician's Care, a Maryland Medicaid managed care organization. Holy Cross Health Network also operates Holy Cross Health Partners at Asbury Methodist Village and in Kensington, primary care practices specializing in internal medicine and geriatrics, and manages all of Holy Cross Health's community health programs and outreach. Beyond our campuses, we provide service at multiple locations, including a vital aging center for seniors. We offer more than 50 different types of health and wellness classes at various locations throughout the region and have established a geographic presence at 24 sites that host our senior exercise program and in multiple faith-based organizations through our faith community nurse program. Holy Cross Health Foundation: The Holy Cross Health Foundation is a not-for-profit organization devoted to raising philanthropic funds to support the mission of Holy Cross Health and to improve the health of the community. Contributions to the foundation help Holy Cross Health invest in new technologies, nursing education, clinical services, community benefit programs, renovations, and new construction. The Campaign for Holy Cross supported the construction of Holy Cross Germantown Hospital and the new patient care building at Holy Cross Hospital.

Q57. Please describe how the needs and priorities identified in your most recent CHNA compare with those identified in your previous CHNA.

Over the past six years, Healthy Montgomery, the Montgomery County hospital systems, and other non-profit organizations have been implementing programs and services to address the unmet needs identified through the community health improvement process of the first CHNA cycle which are the same needs that were identified during current cycle. Below is a compilation of the results from the Healthy Montgomery core measures data that was used to monitor progress made from the first cycle of the community health improvement process (2009-2012) and the second cycle (2012-2015). ARE WE MAKING PROGRESS? Among the 37 Healthy Montgomery core measures 18 are improving, 18 are worsening, and one could not be assessed since it has had no further updates after its baseline. Among the two Holy Cross Health Core measures for seniors, one is improving and one is worsening. A list of which indicators are improving and which are worsening can be found in the Health Indicators section of this document. ARE WE ACHIEVING EQUITY? Of the 34 measures that could be evaluated based on differences across racial/ethnic subgroups, 31 measures had results for White residents, 32 measures had results for African American/Black residents, 26 measures had results for Asian/Pacific Islander residents, and 31 measures had results for Hispanic residents. Results showed Black/African American residents experiencing a widening disparity 38% of the time, the highest proportion of measures across all racial/ethnic groups. Black/African American residents also had the highest proportion of core measures with results that showed their disparity was narrowing at 63% (Healthy Montgomery, 2016).

Q58. (Optional) Please use the box below to provide any other information about your CHNA that you wish to share.

Holy Cross Health has been conducting needs assessments for more than 15 years and identifies unmet community health care needs in our community in a variety of ways. We collaborate with other healthcare providers to support Healthy Montgomery, Montgomery County's community health improvement process. We seek expert guidance from a panel of external participants with expertise in public health and the needs of our community and gather first-hand information from community members through community conversations facilitated by Healthy Montgomery staff members and the Montgomery County Department of Health and Human Services. We review other available reports and needs assessments and use them as reference tools and to identify unmet need in various populations. We also use the Community Need Index to geographically identify high need communities in need of programs and services and use internal data sources to conduct an extensive analysis of demographics, health indicators and other determinants of health for the communities we serve.

Q64. Section III - CB Administration Part 2 - Process & Governance

Q65. Does your hospital conduct an internal audit of the annual community benefit financial spreadsheet? Select all that apply.

- Yes, by the hospital's staff
- Yes, by the hospital system's staff
- Yes, by a third-party auditor
- No

Q66. Does your hospital conduct an internal audit of the community benefit narrative?

- Yes
 No

Q67. Please describe the community benefit narrative audit process.

The HSCRC narrative is included in the annual community benefit plan and undergo a series of internal reviews prior to the final review and approval made by the Holy Cross Health Board of Directors. The annual community benefit plan was written by the community benefit officer and reviewed by the President, Holy Cross Health Network. The community benefit plan was then reviewed by the CEO Review Committee on Community Benefit and Population Health, followed by review and approval by the Mission and Population Health Committee of the Board of Directors. If the Mission and Population Health Committee of the Board of Directors approves the report, it is then recommended for approval by the full Holy Cross Health Board of Directors.

Q68. Does the hospital's board review and approve the annual community benefit financial spreadsheet?

- Yes
 No

Q69. Please explain:

This question was not displayed to the respondent.

Q70. Does the hospital's board review and approve the annual community benefit narrative report?

- Yes
 No

Q71. Please explain:

This question was not displayed to the respondent.

Q72. Does your hospital include community benefit planning and investments in its internal strategic plan?

- Yes
 No

Q73. Please describe how community benefit planning and investments are included in your hospital's internal strategic plan.

We fully integrate our commitment to community service into our management and governance structures as well as our strategic and operational plans and we are rigorous in monitoring and evaluating our progress. We focus our community benefit activity at the intersection of documented unmet community health needs and Holy Cross Health's organizational strengths and mission commitments. Our community benefit plan is closely aligned with Holy Cross Health's population health management plan and complements our other key planning documents including the budget, the human resources plan and the quality plan. Our annual planning of community benefit programs is guided by the strategic plan. Holy Cross Health's fiscal 2019-2022 strategic plan identifies six three strategic principles that frame our response to the evolving environment. P - People Centered Care: Providing innovative patient care, excellent care delivery and improved clinical outcomes E - Engaged Colleagues: Attracting, developing, and retaining exceptional and committed colleagues. O - Operational Excellence: Ensuring efficient and effective care delivery P - Physician Collaboration: Engaging physicians for mutual benefit in activities that attract patients and better manage care L - Leadership Nationally and Locally: Improving the health and well-being of our community through innovation and expanding expertise E - Effective Stewardship: Stewarding our resources to best manage revenue and expenses

Q75. (Optional) Is there any other information about your hospital's community benefit administration and external collaboration that you would like to provide?

Holy Cross Health has been conducting needs assessments for more than 15 years and identifies unmet community health care needs in our community in a variety of ways. One way we identify community need is by collaborating with other healthcare providers to support Healthy Montgomery, Montgomery County's Community Health Improvement Process and Local Health Improvement Coalition. Healthy Montgomery is under the leadership of the Healthy Montgomery Steering Committee, which includes the planners, policy makers, health and social service providers, and community members listed below. It is an ongoing process that includes periodic needs assessments, identification of indicators to monitor for improvement, selection of health priorities, development and implementation of improvement plans and monitoring of the resulting achievements. The Holy Cross Health Network leads the development of the community benefit plan, including the development and analysis of the community health needs assessment. The interdepartmental CEO Review Committee on Community Benefit and Population Health provides guidance and expectations, including the annual implementation work plan, and monitors progress toward goals and targets on a quarterly basis. In addition to providing guidance and expectations, the CEO Review Committee on Community Benefit and Population Health also prioritizes the unmet needs identified in the community health needs assessment. Each member rates each priority on the following criteria: severity of the need, feasibility of our organization to address the need, and the potential each need has for achievable and measurable outcomes. Each need is also scored on its prevalence in the population served. The scores are then added together and ranked from highest to lowest score. The priority with the highest score is the highest ranked priority.

Q100. When did this initiative begin?

07/01/1995

Q101. Does this initiative have an anticipated end date?

- No, the initiative does not have an anticipated end date.
 The initiative will end on a specific end date. Please specify the date.
 The initiative will end when a community or population health measure reaches a target value. Please describe.

- The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.

The initiative will end when external grant money to support the initiative runs out. Please explain.

The initiative will end when a contract or agreement with a partner expires. Please explain.

Other. Please explain.

Q102. Please describe the population this initiative targets (e.g. diagnosis, age, insurance status, etc.).

Senior Fit targets Montgomery County and Prince George's County residents who are 55 years of age and older. It is a minority majority program that serves a diverse population and makes physical activity accessible for older adults.

Q103. Enter the estimated number of people this initiative targets.

1271

Q104. How many people did this initiative reach during the fiscal year?

800

Q105. What category(ies) of intervention best fits this initiative? Select all that apply.

- Chronic condition-based intervention: treatment intervention
- Chronic condition-based intervention: prevention intervention
- Acute condition-based intervention: treatment intervention
- Acute condition-based intervention: prevention intervention
- Condition-agnostic treatment intervention
- Social determinants of health intervention
- Community engagement intervention
- Other. Please specify.

Q106. Did you work with other individuals, groups, or organizations to deliver this initiative?

Yes. Please describe who was involved in this initiative.

Kaiser Permanente of the Mid-Atlantic States, National Lutheran Communities & Services, Montgomery County Department of Recreation, Maryland National Capital Park and Planning Commission, Faith-Based Organizations and Retirement Communities

No.

Q107. Please describe the primary objective of the initiative.

To provide fitness classes for older adults to minimize symptoms of chronic disease and enhance self-management, improve strength and flexibility, cardiovascular endurance and balance

Q108. Please describe how the initiative is delivered.

Senior Fit is a free, 45-minute exercise class that has 69 classes offered at 24 community based sites each week, serving more than 1,200 seniors 55 and older throughout Montgomery and Prince George's counties.

Q109. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

- Count of participants/encounters
- Other process/implementation measures (e.g. number of items distributed)

- Biophysical health indicators
- Assessment of environmental change
- Impact on policy change
- Effects on healthcare utilization or cost
- Assessment of workforce development
- Other

Q110. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

In FY15, 647 participants took the Rikli and Jones Senior Fitness Test, an evidence-based functional fitness test that measures upper body strength (arm curl), lower body strength (chair stand) speed and agility (8 foot up and go) and upper body flexibility (back scratch). A total of 87% of participants scored above standard on all four tests. The area which needed the most improvement was upper body flexibility, where 12% of participants were identified as "at risk" for range of motion in the upper body. In FY17, 900 participants completed the qualitative evaluation, 82% reported an improvement in blood pressure, 81% reported weight loss, 74% reported an improvement in cholesterol level, and 67% reported an improvement in glucose level (HbA1c). The top four chronic diseases among participants were hypertension (43%), arthritis (37%), osteoporosis (23%), diabetes (15%); 1.3% of participants reported having had an emergency room visit in the past 12 months and 9.7% had a hospital admission with an average length of stay of 2.4 nights. Evaluation measures include # of classes, # of encounters, self-reported health improvement, and evidence-based fitness test measures.

Q111. Please describe how the outcome(s) of the initiative addresses community health needs.

Senior Fit decreases isolation and increases physical activity in older adults.

Q112. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.

\$57,615 (costs)

Good morning,

Please find the requested clarification below (in red)

- In Question 63 beginning on page 13 of the attached, you indicate that social service organizations were involved as external community benefit participants. However, you do not identify them by name; please provide their name(s).
 - **See CHNA Implementation Strategy and Annual Report**
- For initiative 2, in response to Question 110 on page 22, you provide outcomes for Fiscal Years 2015 and 2017. Please clarify whether any of the listed outcomes apply to FY 2019.
 - **Observed outcomes for FY19 are not available at this time; only FY15 and FY17 are currently available.**
- For initiative 3, in Question 127 on page 24, is it acceptable to instead classify “minutes of physical activity” as “Other process/implementation measure?”
 - **Yes, that alternate classification is acceptable.**

Please let me know if you need additional information.

Thank you,

Monika Driver

Thank you for submitting Holy Cross Germantown Hospital’s FY 2019 Community Benefit Narrative Report. Upon reviewing your report, we require clarification of certain issues:

- In Question 63 beginning on page 13 of the attached, you indicate that social service organizations were involved as external community benefit participants. However, you do not identify them by name; please provide their name(s).
- For initiative 2, in response to Question 110 on page 22, you provide outcomes for Fiscal Years 2015 and 2017. Please clarify whether any of the listed outcomes apply to FY 2019.

For initiative 3, in Question 127 on page 24, is it acceptable to instead classify “minutes of physical activity” as “Other process/implementation measure?”

Please provide your clarifying answers as a response to this message. Thank you for your attention to this matter.
