

Date: March 14, 2023

To: Physician Engagement and Alignment – Workgroup Members

From: William Henderson, Principal Deputy Director, Medical Economics & Data Analytics

Re: Request for Additional Written Recommendations and Suggestions

---

This memo is provided to request additional recommendations from the Physician Engagement and Alignment Workgroup members prior to the next meeting on March 30<sup>th</sup>, 2023.

During the first two meetings of this workgroup, members have discussed recommendations and comments regarding two existing programs, the Episode Quality Improvement Program (EQIP) and the Maryland Primary Care Program (MDPCP). We expect to share a first draft recapping these recommendations next week. Now, we are requesting workgroup members and other interested parties submit additional recommendations around potential expansions and programs that will enhance physician engagement and alignment. These recommendations will help guide a robust discussion around new physician engagement and alignment ideas for the future of the Maryland Health Model.

**Please email additional recommendations to [lynne.diven@maryland.gov](mailto:lynne.diven@maryland.gov) by March 24<sup>th</sup>.** If you wish to present or speak further on your comments during the next scheduled meeting, please indicate that in your submission emails.
