Q1.

Introduction:

COMMUNITY BENEFIT NARRATIVE REPORTING INSTRUCTIONS

The Maryland Health Services Cost Review Commission's (HSCRC's or Commission's) Community Benefit Report, required under §19-303 of the Health General Article, Maryland Annotated Code, is the Commission's method of implementing a law that addresses the growing interest in understanding the types and scope of community benefit activities conducted by Maryland's nonprofit hospitals.

The Commission developed a two-part community benefit reporting system that includes an inventory spreadsheet that collects financial and quantitative information and a narrative report to strengthen and supplement the inventory spreadsheet. The guidelines and inventory spreadsheet were guided, in part, by the VHA, CHA, and others' community benefit reporting experience, and was then tailored to fit Maryland's unique regulatory environment. This reporting tool serves as the narrative report. The instructions and process for completing the inventory spreadsheet remain the same as in prior years. The narrative is focused on (1) the general demographics of the hospital community, (2) how hospitals determined the needs of the communities they serve, (3) hospital community benefit administration, and (4) community benefit external collaboration to develop and implement community benefit initiatives.

The Commission moved to an online reporting format beginning with the FY 2018 reports. In this new template, responses are now mandatory unless marked as optional. If you submit a report without responding to each question, your report may be rejected. You would then be required to fill in the missing answers before resubmitting. Questions that require a narrative response have a limit of 20,000 characters. This report need not be completed in one session and can be opened by multiple users.

Is this information correct?

Yes

No

For technical assistance, contact HCBHelp@hilltop.umbc.edu.

Q2. Section I - General Info Part 1 - Hospital Identification

Q3. Please confirm the information we have on file about your hospital for FY 2018.

The proper name of your hospital is: Frederick Memorial Hospital	•	0										
Your hospital's ID is: 210005	•	0										
Your hospital is part of the hospital system called None - Independent Hospital.	•	0										
	The next two questions ask about the area where your hospital directs its community benefit efforts, called the Community Benefit ervice Area. You may find these community health statistics useful in preparing your responses.											
5. (Optional) Please describe any other community health s	statistics that y	our hospita	I uses in its community benefit efforts.									

If no, please provide the correct information here:

Q6. (Optional) Please attach any files containing community health statistics that your hospital uses in its community benefit efforts.

Q7. Section I - General Info Part 2 - Community Benefit Service Area

Q8. Please select the county or counties located in your hospital's CBSA.

Allegany County	Charles County	Prince George's County
Anne Arundel County	Dorchester County	Queen Anne's County
Baltimore City	✓ Frederick County	Somerset County
Baltimore County	Garrett County	St. Mary's County
Calvert County	Harford County	Talbot County
Caroline County	Howard County	Washington County
Carroll County	Kent County	Wicomico County

Q9. Please check all Allegany County ZIP codes located	d in your hospital's CBSA.									
This question was not displayed to the respondent.										
Q10. Please check all Anne Arundel County ZIP codes located in your hospital's CBSA.										
This question was not displayed to the respondent.

Q20. Please check all Garrett County ZIP codes located	in your hospital's CBSA.									

Montgomery County

Worcester County

Q21. Please check all Harford County ZIP codes located in your hospital's CBSA.

This question was not displayed to the respondent.

This question was not displayed to the respondent.

Cecil County

Q22. Please check all Howard County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q23. Please check all Kent County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q24. Please check all Montgomery County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q25. Please check all Prince George's County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q26. Please check all Queen Anne's County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q27. Please check all Somerset County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q28. Please check all St. Mary's County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q29. Please check all Talbot County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q30. Please check all Washington County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q31. Please check all Wicomico County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q32. Please check all Worcester County ZIP codes located in your hospital's CBSA.	
This question was not displayed to the respondent.	
Q33. How did your hospital identify its CBSA?	
Based on ZIP codes in your Financial Assistance Policy. Please describe.	
di .	
$\ensuremath{ \ensuremath{ \mathscr{C}} }$ Based on ZIP codes in your global budget revenue agreement. Please describe.	
Appendix E of the Global Budget Revenue agreement signed on 2/21/14 defines the hospital's service area for	
primary and secondary service areas. The hospital monitors our market share	
on an ongoing basis by analyzing and identifying changes in the levels of	
the patient volumes that are derived from its primary and secondary service	
areas. There have been no significant changes in patient volumes from	
outside the PSA or SSA during this fiscal year.	
Based on patterns of utilization. Please describe.	

Q34. (Optional) Is there any other information about your hospital's Community Benefit Service Area that you would like to provide?
935. Section I - General Info Part 3 - Other Hospital Info
Q36. Provide a link to your hospital's mission statement.
https://www.fmh.org/About/About-Frederick-Health/Vision-Mission-Values.aspx
Q37. Is your hospital an academic medical center?
Yes
Q38. (Optional) Is there any other information about your hospital that you would like to provide?
Q39. (Optional) Please upload any supplemental information that you would like to provide.
Q40. Section II - CHNA Part 1 - Timing & Format
Q41. Within the past three fiscal years, has your hospital conducted a CHNA that conforms to IRS requirements?
Yes No
Q42. Please explain why your hospital has not conducted a CHNA that conforms to IRS requirements, as well as your hospital's plan and timeframe for completing a CHNA.
This question was not displayed to the respondent.
Q43. When was your hospital's most recent CHNA completed? (MM/DD/YYYY) The CHNA for this reporting period was completed on 06/28/2016. A new CHNA was completed in May 2019 for FYs 2020-2022.
Q44. Please provide a link to your hospital's most recently completed CHNA.

https://www.fmh.org/documents/PDFs/56183-Community-Health_Rev-829.pdf

Other. Please describe.

Q46. Please describe the other formats in which yo	ou made your Ch	HNA available	e.								
The CHNA is available as a downloadable PDI	F file.

Q57. Please describe how the needs and priorities identified in your most recent CHNA compare with those identified in your previous CHNA.

During the 2014-2016 CHNA, the priorities were Behavioral Health, Affordable Dental Care, Health Disparities, Health Education and Frail Seniors. The 2016-2018 CHNA had three priorities-Adverse Childhood Experiences (ACEs), Behavioral Health and Senior Support; one of which was a carryover from the prior cycle. Overdose deaths, suicide prevention and behavioral health integration were the goals for the 2014-2016 Behavioral Health workgroup. The goals changed for the 2016-2018 cycle to access to behavioral health care, community awareness and stigma reduction, and establishing an alcohol detox facility to improve recovery.

Implementation planning for community health priorities is delineated in the Local Health Improvement Plan, coordinated by the Frederick County Health Department. The most recent LHIP plan and the goals and progress of the priority workgroups may be found at: http://health.frederickcountymd.gov/315/Local-Health-Improvement Process.

Q59. (Optional) Please attach any files containing information regarding your CHNA that you wish to share.

	Other. Please specify.

 ${\it Q88.}\ {\it Did\ you\ work\ with\ other\ individuals,\ groups,\ or\ organizations\ to\ deliver\ this\ initiative?}$

Yes. Please describe who was involved in this initiative.

Frederick County Health Department, Frederick County Mental Health Association, Maryland 211, The Frederick Center, Wells House, Way Station, Inc., Behavioral Health Partners, Potomac Case Management

No.

As part of the Local Health Improvement Plan, the vision of this initiative is for Frederick County residents across the lifespan and regardless of socio-economic status to demonstrate improved behavioral health and a reduction in substance abuse. Specifically, FMH is focused on improving identification and treatment of mental health as well as substance use disorders through enhanced access to care and care navigation.

Q90. Please describe how the initiative is delivered.

Working closely with our community partners, four strategies have been employed at FMH to meet the objectives of the initiative. 1.Internal activities focusing on data collection around Emergency Department utilization demonstrated a need for immediate support when an individual with substance use disorder is treated in the Emergency Department. In collaboration with the Frederick County Health Department, peer recovery specialists work in the hospital environment to provide this immediate support and to assist in establishing community connections and support following discharge. 2.A depression screening foor mild to moderate mental illness in a primary care setting. 3. Through a partnership with Potomac Case Management, individuals with a mental health or substance use disorder diagnosis are assisted through advocacy, education, connection with community resources and compliance with health care to optimize their quality of daily living. 4. Community Health Education is provided by lay health educators who are have completed the Bridges Lay Health Educator program at FMH. Topics included in a module on substance abuse disorder include: How it Starts, Substance Use Disorders and Withdrawal, How to use NARCAN, Treatment for Addiction, Neonatal Abstinence Syndrome, Effects on the Family Additionally, staff from FMH are members of the Behavioral Health work group that is part of the Frederick County Local Health Improvement Plan. One activity that has been completed by the workgroup is a graphic resource listing that is used throughout the county on printed literature and websites, including www.fmh.org to expand awareness about Mental Healthan ad Substance Abuse resources that are available in the county.

Improvement Plan. One activity that has been completed by the workgroup is a graphic resource listing that is used throughout the county on printed literature and wincluding www.fmh.org to expand awareness about Mental Health and Substance Abuse resources that are available in the county.	ebsites,
 Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply. 	
,	
Count of participants/encounters Encounters with Peer Recovery Specialists and Behavioral Health Specialists, Number of Lay Health Educators trained.	
Other process/implementation measures (e.g. number of items distributed) Number of Depression Screens completed	
Surveys of participants	
Biophysical health indicators	
Assessment of environmental change	
Impact on policy change

Assessment of workforce development	
Other	
2. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).	
1. Peer recovery specialists met with 806 individuals in FY 19 for a total of 1153 encounters. Approximately 1 in 3 individuals were connected with additional behavio services; while 1 in 10 accessed peer support services, a much lower follow-through rate than behavioral health. 2. Behavioral Health Specialists encountered 857 u patients with a total of 2061 interventions including telephone calls, face to face visits and home visits. 3. 74.18% of assigned Medicare beneficiaries in the Frederick Integrated Healthcare Network ACO received a clinical depression screening(PHQ2) and, where appropriate, a follow-up plan. This rate exceeded the mean perform rate for MSSP ACOs for CY 2018 of 66.74% and was a 2% increase over FY 18 performance. 4. Fourteen (14) Lay Health Educators completed the Bridges Progral 19. The majority of those completing the program are members of faith based communities who are able to use this information as they provide ongoing education a support to other members of their community.	nique ance m in FY
3. Please describe how the outcome(s) of the initiative addresses community health needs. The need for improved access to mental health care was identified in both the 2013 and 2016 CHNA. The programs that have been implemented as part of both CH implementation strategies are meeting the needs of those seeking care for the treatment of behavioral health or substance use disorders.	NA
4. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.	
\$518,076.00	
5. (Optional) Supplemental information for this initiative.

Q102. Please describe the population this initiative targets (e.g. diagnosis, age, insurance status, etc.).
During FY 2019, 62.2% of individuals with diabetes who received services at FMH were between the ages of 18-59 which represents an increase of 5% over last year in the
number of younger people diagnosed with diabetes. The percentage of individuals receiving services in the 60+ age group remained stable at 38%. The majority were whit 68.9%; black was the identified race of 20.8 % of this population. Non-Hispanics made up 92% of this targeted population. Of those who received care, 86% where
discharged home to self- care, which is a 15% increase in the number of patients who are returning home to receive services in the community.
Q103. Enter the estimated number of people this initiative targets.
12524
12024
Q104. How many people did this initiative reach during the fiscal year?
1152
ITOE
Q105. What category(ies) of intervention best fits this initiative? Select all that apply.
✓ Chronic condition-based intervention: prevention intervention
Acute condition-based intervention: treatment intervention
Acute condition-based intervention: prevention intervention
Condition-agnostic treatment intervention
Social determinants of health intervention
✓ Community engagement intervention
Other. Please specify.
Q106. Did you work with other individuals, groups, or organizations to deliver this initiative?

Yes. Please describe who was involved in this initiative.

Frederick County Health Department Asian American Center of Frederick Live Well Frederick Managing Active Citizens (MAC)

No.

The primary objective of this initiative is to improve the health of individuals who are living with diabetes or who at risk for developing this chronic condition. Initiatives are focused in areas where health disparities are known to exist based on gender, age, race/ethnicity, geographic area and socioeconomic status. To address these disparities, activities focus on: 1. Areas where there is known prevalence of risk factors 2. Access to treatment barriers 3. Improvement in appropriate and timely treatment.

Q108. Please describe how the initiative is delivered.

Two ongoing, community based activities are the Diabetes Support Group and the Living Well with Diabetes Education Series. The diabetes support group is held monthly and is led by registered dietitians, registered nurses, certified diabetic educators, behaviorists, and providers. Sessions include topics such as: grocery store tours, recipe makeovers, the latest in diabetes news/standards of care, diabetes and exercise, stress and diabetes, goal setting, dealing with emotions and diabetes, surviving the holidays, planning for a healthy summer. Living Well with Diabetes helps individuals with diabetes or pre-diabetes learn how to manage and improve their health. This program, which is provided in partnership with Live Well Frederick and a licensing agreement with MAC is presented as 6 two and one half hour sessions, in which participants learn: - Nutrition/healthy eating and preventing low blood sugar - Glucose monitoring - Appropriate exercise and maintaining a balance of blood sugar - Communicating effectively with family, friends, and healthcare providers - Techniques to deal with pain, fatigue, frustration, and isolation - Making informed treatment decisions and disease related problem solving - Medication usage - Skin and foot care - Goal Setting/Action Planning Living Well with Diabetes is offered in the northern Frederick County area, an area that has been identified as having a medically underserved poulation. An annual health fair held in partnership with the Asian American Center of Frederick targets the underserved and uninsured population. Individuals are screened for diabetes and those with abnormal blood glucose levels are offered a referral to the FMH Care Clinic. The FMH Care Clinic is not a substitute for a primary care doctor or specialist, but is designed to be a resource that assists the individual in avigating their health care reaeds through education and improving their access to care; an important first step in the care of a person who has been newly screened as possibly having diabetes. T

financial barriers to health care - Links to support services in the home and community resources
Q109. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

Assessment of workforce development
Other
By providing disease management education in the community, individuals with diabetes are able to access resources close to their homes. The Living Well with Diabetes program was offered as 4 workshops with a total of 56 individuals participating. Additionally, there were 29 attendees at the Diabetes Support Groups. Other community education events reached 503 individuals at health fairs and other educational venues with services provided by lay health educators. Positive blood glucose screens at community health fairs provide a gateway to service for uninsured and/or under insured individuals; in FY 19 169 of 250 individuals screened had abnormal results and we referred to the CARE clinic for follow-up. 208 unique patients received services provided at CARE clinic for a total of 456 encounters. This number represents a 28% increase in the number of individuals seeking diabetic services at the CARE clinic over FY18. Services provided at the CARE clinic assist not only the newly diagnosed diabetics in making care connections, but help those who have recently been discharged from the hospital transition to follow-up care. Although not all patients seen in the CARE clinic subsequently receive follow-up care from a provider who is part of the Frederick Integrated Healthcare Network ACO, assigned Medicare beneficiaries in this population performed strongly in two quality measures during CY 18. The percentage of diabetic patients with poor A1-C control (ACO-27) was 12.90% which is better that the national ACO average of 15.51%. Patients having diabetic eye exams (ACO-41) was unanged from CY17 to FY 18 at 48.79%. The Emergency Department visit rate due to Diabetes was less than the Maryland SHIP goal of 186.3, with a rate of 181.6 in the 2017 reporting period.
Q111. Please describe how the outcome(s) of the initiative addresses community health needs.
As part of the 2016 CHNA process, 53% of respondents to a survey of community health needs strongly agreed that diabetes was a county health priority. A focus group of Spanish speaking residents stated that more follow up care is needed for individuals with chronic diseases like diabetes and high blood pressure. Implementation strategical adopted by FMH have focused on increasing outreach, education and navigation to vulnerable communities.
Q112. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.
\$398,030.00

☐ Health Literacy	Other Social Determinants of Health
Health-Related Quality of Life & Well-Being	Other (specify)

The mission of Frederick Memorial Hospital is to promote the well-being of every individual in Frederick County. Community benefit initiatives specifically addressing arthritis, osteoporosis and chronic back pain have not been a focus of the hospital, as these health issues were not selected as health priorities in the Local Health Improvement Plan, which is the community-wide action plan associated with the CHNA. However, Frederick Memorial Hospital does provide diagnosis and treatment of patients with these conditions. Older adults were a priority in the Local Health Improvement plan and while the hospital did not develop community benefit initiatives specific to this population, we were members of the Senior Support focus group that identified several needs in the community including improved transportation for seniors and specialized medical care for the geriatric population. The hospital has actively recruited for a physician with training in geriatrics and is in the process of hiring a provider in FY 20. As an active member of the Frederick County Health Care Coalition, the Hospital will continue to work with community partners to address the health needs of our residents whenever that is possible.

Q138. Do any of the hospital's community benefit operations/activities align with the State Health Improvement Process (SHIP)? Specifically, do any activities or initiatives correspond to a SHIP measure within the following categories?

See the SHIP website for more information and a list of the measures: https://pophealth.health.maryland.gov/Pages/SHIP-Lite-Home.aspx

	Select Yes or No	
	Yes	No
Healthy Beginnings - includes measures such as babies with low birth weight, early prenatal care, and teen birth rate	•	0
Healthy Living - includes measures such as adolescents who use tobacco products and life expectancy	•	\circ
Healthy Communities - includes measures such as domestic violence and suicide rate		•
Access to Health Care - includes measures such as adolescents who received a wellness checkup in the last year and persons with a usual primary care provider	•	\circ
Quality Preventive Care - includes measures such as annual season influenza vaccinations and emergency department visit rate due to asthma	•	\circ

Q145. Section VI - Financial Assistance Policy (FAP)

Q144. (Optional) Please attach any files containing further information regarding physician gaps at your hospital.

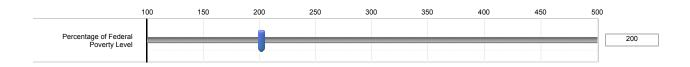

Q146. Upload a copy of your hospital's financial assistance policy.

Financial-Assistance-Policy.pdf 86.8KB application/pdf

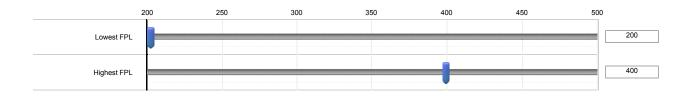

Q147. Upload a copy of the Patient Information Sheet provided to patients in accordance with Health-General §19-214.1(e).

Financial-Assistance-Brochure(rev-20180614),pdf 6.4MB application/pdf

Q148. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(2)(a)(i) to provide free medically necessary care to patients with family income at or below 200 percent of the federal poverty level (FPL). Please select the percentage of FPL below which your hospital's FAP offers free care.

Q149. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(2)(a)(ii) to provide reduced-cost, medically necessary care to low-income patients with family income between 200 and 300 percent of the federal poverty level. Please select the range of the percentage of FPL for which your hospital's FAP offers reduced-cost care.

Q150. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(3) to provide reduced-cost, medically necessary care to patients with family income below 500 percent of the federal poverty level who have a financial hardship. Financial hardship is defined as a medical debt, incurred by a family over a 12-month period that exceeds 25 percent of family income. Please select the range of the percentage of FPL for which your hospital's FAP offers reduced-cost care for financial hardship. Please select the threshold for the percentage of medical debt that exceeds a household's income and qualifies as financial hardship.

Q151. Please select the threshold for the percentage of medical debt that exceeds a household's income and qualifies as financial hardship.

Q152. Has your FAP changed within the last year? If so, please describe the change.

- No, the FAP has not changed.
- Yes, the FAP has changed. Please describe:

Q153. (Optional) Is there any other information about your hospital's FAP that you would like to provide?

Q154. (Optional) Please attach any files containing further information about your hospital's FAP.

Q155. Summary & Report Submission

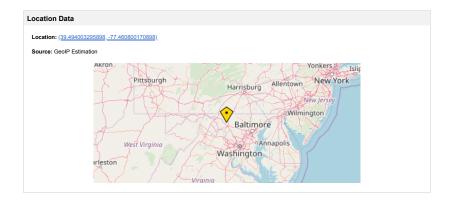

Q156.

Attention Hospital Staff! IMPORTANT!

You have reached the end of the questions, but you are not quite finished. Your narrative has not yet been fully submitted. Once you proceed to the next screen using the right arrow button below, you cannot go backward. You cannot change any of your answers if you proceed beyond this screen.

We strongly urge you to contact us at hcbhelp@hilltop.umbc.edu to request a copy of your answers. We will happily send you a pdf copy of your narrative that you can share with your leadership, Board, or other interested parties. If you need to make any corrections or change any of your answers, you can use the Table of Contents feature to navigate to the appropriate section of the narrative.

Once you are fully confident that your answers are final, return to this screen then click the right arrow button below to officially submit your narrative.

Subject: [EXTERNAL EMAIL] - Clarification Required - FY 19 CB Narrative

CAUTION: This email originated from outside of Frederick Health. DO NOT click on links or open attachments if you do not recognize the sender.

Thank you for submitting Frederick Memorial Hospital's FY 2019 Community Benefit Narrative Report. Upon reviewing your report, we require clarification of certain issues:

• In response to Question 150 on page 28 you selected 700% as the highest FPL threshold but your Financial Assistance Policy states that thee highest FPL threshold for medical hardship is 500%. Did you intend to select "500" as the highest FPL threshold?

Please provide your clarifying answers as a response to this message. Thank you for your attention to this matter.
