Ω1

Introduction:

COMMUNITY BENEFIT NARRATIVE REPORTING INSTRUCTIONS

The Maryland Health Services Cost Review Commission's (HSCRC's or Commission's) Community Benefit Report, required under §19-303 of the Health General Actiounly Amountated Code, is the Commission's method of implementing a law that addresses the growing interest in understanding the types and scope of community benefit activities conducted by Maryland's nonprofit hospitals.

The Commission developed a two-part community benefit reporting system that includes an inventory spreadsheet that collects financial and quantitative information and a narrative report to strengthen and supplement the inventory spreadsheet. The guidelines and inventory spreadsheet were guided, in part, by the VHA, CHA, and others' community benefit reporting experience, and was then tailored to fit Maryland's unique regulatory environment. This reporting tool serves as the narrative report. The instructions and process for completing the inventory spreadsheet remain the same as in prior years. The narrative is focused on (1) the general demographics of the hospital community, (2) how hospitals determined the needs of the communities they serve, (3) hospital community benefit administration, and (4) community benefit external collaboration to develop and implement community benefit initiatives.

The Commission moved to an online reporting format beginning with the FY 2018 reports. In this new template, responses are now mandatory unless marked as optional. If you submit a report without responding to each question, your report may be rejected. You would then be required to fill in the missing answers before resubmitting. Questions that require a narrative response have a limit of 20,000 characters. This report need not be completed in one session and can be opened by multiple users.

Is this information correct?

Yes

No

For technical assistance, contact HCBHelp@hilltop.umbc.edu.

Q2. Section I - General Info Part 1 - Hospital Identification

Q3. Please confirm the information we have on file about your hospital for FY 2018.

The proper name of your hospital is: Washington Adventist Hospital	•	0	
Your hospital's ID is: 210016	•	0	
Your hospital is part of the hospital system called Adventist HealthCare.	•	0	
24. The next two questions ask about the area wherevice Area. You may find these community health (Optional) Please describe any other community health	t <u>h statistics</u> us	seful in pre	

If no, please provide the correct information here:

Q6. (Optional) Please attach any files containing community health statistics that your hospital uses in its community benefit efforts.

Q7. Section I - General Info Part 2 - Community Benefit Service Area

Q8. Please select the county or counties located in your hospital's CBSA.

Allegany County	Charles County	Prince George's County
Anne Arundel County	Dorchester County	Queen Anne's County
Baltimore City	Frederick County	Somerset County
Baltimore County	Garrett County	St. Mary's County
Calvert County	Harford County	Talbot County
Caroline County	Howard County	Washington County
Carroll County	Kent County	Wicomico County

Cecil County		Montgomery County		Worcester County	
9. Please check all Allegany	County ZIP codes located	in your hospital's CBSA.

Yes, by the hospital's staff	
✓ Yes, by the hospital system's staff	
Yes, by a third-party auditor	
□ No	
Q66. Does your hospital conduct an internal audit of the community benefit narrative?	
O Yes	
No	
Q67. Please describe the community benefit narrative audit process.	
This question was not displayed to the respondent.	
Q68. Does the hospital's board review and approve the annual community benefit financial spreadsheet?	
○ Yes	
No	
Q69. Please explain:	
The Adventist HealthCare Board of Trustees reviewed and approved the Community Health Needs Assessment and Implementation Strategy. The Board of Trustees only	
meets twice per year so they have not yet had a chance to review this report.	
	1
Q70. Does the hospital's board review and approve the annual community benefit narrative report?	
Yes	
No	
Q71. Please explain:	
The Adventist HealthCare Board of Trustees reviewed and approved the Community Health Needs Assessment and Implementation Strategy. The Board of Trustees only meets twice per year so they have not yet had a chance to review this report.	
Q72. Does your hospital include community benefit planning and investments in its internal strategic plan?	
Vac	
Yes No	
Q73. Please describe how community benefit planning and investments are included in your hospital's internal strategic plan.	
	,
As a part of Adventist HealthCare, Washington Adventist Hospital (WAH) is dedicated to Community Benefit which aligns with the system's core mission and values. The Strategic Plan for WAH as well as all of Adventist HealthCare (AHC) is based on six pillars of success: People, Quality and Safety, Patient Experience, Finance, Growth,	
and Population Health. Each of these pillars is centered on measurable objectives and targets and is led by an overarching council with several committees reporting up to it. Included within the Population Health pillar are the hospital's community benefit efforts. The Community Benefit Steering Committee which oversees the CHNA and	
Implementation Strategy process as well as community benefit system wide, reports to the Population Health Council. The strategic plan also outlines system-wide community benefit infrastructure and the areas of focus as determined by the CHNA process.	
Q74. (Optional) If available, please provide a link to your hospital's strategic plan.	
a ()	
The strategic plan is not a publicly available document.	

Q76. (Optional) Please attach any files containing information regarding your hospit	al's community benefit administration and external collaboration.
Q77. Based on the implementation strategy developed through the CHNA process, your hospital to address community health needs during the fiscal year. O78. Section IV - CB Initiatives Part 1 - Initiative	
Q79. Name of initiative.	'
Diabetes Self-Management Program (DSMP)	
Q80. Does this initiative address a community health need that • Yes • No	t was identified in your most recently completed CHNA?
Q81. In your most recently completed CHNA, the followin Access to Health Services: Health Insurance, Acces Behavioral Health, including Mental Health and/or S and Community-Based Programs, Health-Related Q Stroke, HIV, Immunization and Infectious Diseases, Status, Physical Activity, Respiratory Diseases, Tob Transportation, Unemployment & Poverty, Other So Other: Using the checkboxes below, select the needs that appointilative.	s to Health Services: Regular PCP Visits, ubstance Abuse, Cancer, Diabetes, Educational uality of Life & Well-Being, Heart Disease and Maternal & Infant Health, Nutrition and Weight acco Use, Housing & Homelessness, cial Determinants of Health

82. When did this initiative begin?
Fall 2015
83. Does this initiative have an anticipated end date?
No, the initiative has no anticipated end date.
The initiative will end on a specific end date. Please specify the date.
The initiative will end when a community or population health measure reaches a target value. Please describe.
The initiative will end when a clinical measure in the hospital reaches a target value. Please describe.
The initiative will end when external grant money to support the initiative runs out. Please explain.
The initiative will end when a contract or agreement with a partner expires. Please explain.
Other. Please explain.
84. Please describe the population this initiative targets (e.g. diagnosis, age, insurance status, etc.).
This program primarily targets low-income, uninsured, and/or underinsured community members who have pre-diabetes or are living with diabetes. The program is also open to family members and caretakers who are interested in learning more about diabetes management and prevention for their loved ones.
85. Enter the estimated number of people this initiative targets.
56,847
86. How many people did this initiative reach during the fiscal year?
75
87. What category(ies) of intervention best fits this initiative? Select all that apply.
✓ Chronic condition-based intervention: treatment intervention
Chronic condition-based intervention: treatment intervention Property Chronic condition-based intervention: prevention intervention

Other (specify)

✓ Health-Related Quality of Life & Well-Being

Acute condition-based intervention: treatment intervention
 Acute condition-based intervention: prevention intervention

✓	
	Social determinants of health intervention
	Community engagement intervention
	Other. Please specify.
288. [you work with other individuals, groups, or organizations to deliver this initiative?
•	es. Please describe who was involved in this initiative.
	Yes, to provide the DSMP workshop in the community, AHC is licensed under
	Health Quality Innovators (HQI). HQI
	provides training for our facilitators as well as technical assistance for
	our program coordinators. The
	Montgomery County Health and Human Services Office of Aging is a program
	funder. We work closely with several
	community partners such as community centers, low-income housing complexes,
	and our faith community network to
	identify locations to host DSMP workshops in the community as well as
	to recruit participants.
\bigcirc	10.
89. F	ase describe the primary objective of the initiative.
Th	ase describe the primary objective of the initiative. Orimary objective of this initiative is to increase access to education and resources for low-income and uninsured/underinsured community members living with diabetes area. The DSMP workshop aims to increase confidence and skills in better managing and controlling diabetes.

Other

We completed six 6-week workshops in 2019. The completed workshops took place at Shady Grove Community Center, Plum Gar Community Center, Rockville Senior Center, North Potomac Community Center, Long Branch Community Center, and White Oak Community and Senior Center. 75 unique individuals attended the workshops, with a total of 297 encounters; 44 individuals were completers, having attended at least 4 of the 6 sessions of their workshop. The pre- and post-assessment outcomes ('information based on participants who completed both pre- and post-assessments) include: 11 (69%) individuals increased the number of days they ate five or more servings of fruits and vegetables (n = 16); 11 (61%) individuals increased the number of days they exercised for at least 30 minutes (n = 18); 11 (61%) individuals increased the interest of the post of t

During the 2016 CHNA cycle, diabetes was identified as a primary community health concern. The outcomes indicate improvement in participants confidence, knowledge, and overall lifestyle behaviors surrounding diabetes management. Additionally, community members who are either uninsured or underinsured now have access to affordable and comprehensive diabetes education. With the additional training of lay and clinical community members to be DSMP facilitators, and work toward earning their CDE certifications, we are working to build capacity within our community and increase access to diabetes education.

Q94. What was the total cost to the hospital of this initiative in FY 2018? Please list hospital funds and grant funds separately.

Total Cost of Diabetes Self-Management Program: \$9,081.48 Paid by Hospital: \$1,335.63 Grant Funding from Montgomery County Health and Human Services Office of Aging: \$7,745.86 Note: The Diabetes Self-Management Program is an AHC program that is a joint effort between Shady Grove Medical Center and Washington Adventist Hospital. The costs and offsetting revenue for these programs have been split accordingly between the two reports.

	Assessment of workforce development
	Other
Q110. F	Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).
	ogram Reach to date (Jan – Nov 2019): 164 participants began receiving produce deliveries. 6,300 pounds of fresh produce were delivered with every participant eiving over 38 pounds of healthy fruits and vegetables.
1000	g p-a

Q111. Please describe how the outcome(s) of the initiative addresses community health needs.

In Montgomery and Prince George's County, the overall food insecurity rate, as of 2016, is 5.9% and 14%. In Montgomery County, adults who are overweight or obese increased from 52.9% in 2015 to 58.7% in 2016. For Prince George's County, the percentage of overweight and obese adults also increased from 65.6% in 2015 to 72.2% in 2016. Adventist HealthCare continues to work with community partners such as Harvey Harvest to reduce food insecurity and promote healthy behaviors to prevent and improve the management of chronic diseases such as obesity and diabetes.

Cost of the Hungry Harvest HarvestRx Program: \$10,735 Paid by Hospital: \$10,735 Grant Funding: \$0 Note: Hungry Harvest HarvestRx is an AHC program that is a joint effort between Shady Grove Medical Center and Washington Adventist Hospital. Spring 2017

Q124. Did you work with other individuals, groups, or organizations to deliver this initiative?

Yes. Please describe who was involved in this initiative.

Several partners are involved in the delivery of the LBHFAF including Community Health and Empowerment through Education and Research (CHEER) as the project lead, Primary Care Coalition, Manna. Mobile Med, and Crossroads Community Food Network. The program also collaborates with additional local food providers and farms such as Hungry Harvest, Chocolates and Tomatoes and the Capital Area Food Bank at Clifton Park Baptist Church for food distribution to participants.

No.

Q125. Please describe the primary objective of the initiative.

The primary objective for this initiative is to provide food, education and support resources to vulnerable populations to encourage healthy behaviors and improve diabetes management (HbA1c), BMI, weight, and food security. Note: The Long Branch Healthy Food Access Program is a joint effort between Shady Grove Medical Center and Washington Adventist Hospital. The description and outcomes for this program have been listed on the reports for both hospitals. Persons reached as well as outcomes are reported as combined totals.

Q126. Please describe how the initiative is delivered.

LBHFAP is for individuals with diabetes living in the Takoma Park and Long Branch communities. Each participant receives 3-months of active intervention followed by 9-months of maintenance. Throughout the active intervention, community health workers (CHWs) work with participants to develop a tailored food access and healthy living plan, assess eligibility and help with enrollment for assistance programs (i.e. SNAP and WIC), enroll interested participants in Manna's nutrition education program, and provide referrals to primary care providers if participants do not already have one. During the active intervention, participants also receive free weekly food deliveries from providers such as Hungry Harvest, Manna, and Crossroads Community Food Network. Participants are also provided the opportunity to take part in monthly education sessions such as Cooking, nutrition, or physical activity classes.

Q127. Based on what kind of evidence is the success or effectiveness of this initiative evaluated? Explain all that apply.

Count of participants/encounters The total number of program participants
Other process/implementation measures (e.g. number of items distributed) The total number of food deliveries for participants
Surveys of participants Behavior change
Assessment of environmental change
Impact on policy change
Effects on healthcare utilization or cost
Assessment of workforce development
Other

Q128. Please describe any observed outcome(s) of the initiative (i.e., not intended outcomes).

Program Reach for January to June 2019: 52 out of the 60 people enrolled in the program were considered "completers"; 924 boxes/bags of food were distributed to participants; 14 participants attended at least two educational events focused on topics such as nutrition and healthy cooking; 60% of obese and overweight participants lowered their weight; 68% of participants saw improved blood glucose control; 34% of participants reported improved health status (self report); 27% of participants reported purchasing fruits and vegetables more frequently; 36% of participants reported eating more servings of fruits and vegetables; 12 – 21% of participants reported eating unhealthy foods less frequently.

Q129. Please describe how the outcome(s) of the initiative addresses community health needs.

In Montgomery and Prince George's County, the overall food insecurity rate as of 2016 is 5.9% and 14%, respectively. Adventist HealthCare continues to work towards reducing obesity, food insecurity, and managing diabetes. To address food access in both counties, the LBHFAP served over 60 low-income, food-insecure residents of the Takoma Park and Long Branch communities who are living with diabetes. Participants received free food assistance from local partners. Participants were also offered the opportunity to participate in monthly nutrition and fitness classes. Classes included cooking demonstrations, how to use a glucometer, 'Ask the Doctor', and various home exercise classes. Program participants have exhibited an increase in healthy eating behaviors, weight loss, and improved glycemic control. Although the numbers are small for the 3 to 6-month post-intervention follow-up data, the outcomes have thus far been very promising with the majority of participants maintaining their healthy behaviors, weight loss, and glycemic control.

Cost of the Long Branch Healthy Food Access Program: \$25,600 Paid by Hosp joint effort between Shady Grove Medical Center and Washington Adventist Ho hospitals.	itlal: \$25,600 Grant Funding: \$0 Note: The Long Branch Healthy Food Access Program is a spital. The costs and offsetting revenue for this program have been split between the two

Q147. Upload a copy of the Patient Information Sheet provided to patients in accordance with Health-General §19-214.1(e).

Financial Assistance WOMC.pdf 197.8KB application/pdf

Q148. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(2)(a)(i) to provide free medically necessary care to patients with family income at or below 200 percent of the federal poverty level (FPL). Please select the percentage of FPL below which your hospital's FAP offers free care.

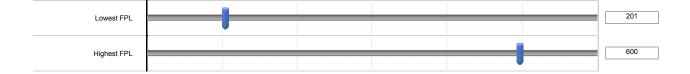

Q149. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(2)(a)(ii) to provide reduced-cost, medically necessary care to low-income patients with family income between 200 and 300 percent of the federal poverty level. Please select the range of the percentage of FPL for which your hospital's FAP offers reduced-cost care.

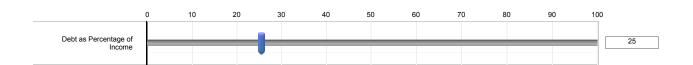

Q150. Maryland hospitals are required under COMAR 10.37.10.26(A-2)(3) to provide reduced-cost, medically necessary care to patients with family income below 500 percent of the federal poverty level who have a financial hardship. Financial hardship is defined as a medical debt, incurred by a family over a 12-month period that exceeds 25 percent of family income. Please select the range of the percentage of FPL for which your hospital's FAP offers reduced-cost care for financial hardship. Please select the threshold for the percentage of medical debt that exceeds a household's income and qualifies as financial hardship.

100	200	300	400	500	600	700

Q151. Please select the threshold for the percentage of medical debt that exceeds a household's income and qualifies as financial hardship.

Q152. Has your FAP changed within the last year? If so, please describe the change.

- No, the FAP has not changed.

Yes, the FAP has changed. Please describe: The only changes made were adding Fort Washington Medical Center and changing "Washington Adventist Hospital" to "White Oak Medical Center"

Q153. (Optional) Is there any other information about your hospital's FAP that you would like to provide?

Q154. (Optional) Please attach any files containing further information about your hospital's FAP.

Q155. Summary & Report Submission

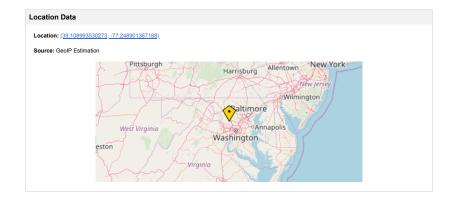

Q156.

Attention Hospital Staff! IMPORTANT!

You have reached the end of the questions, but you are not quite finished. Your narrative has not yet been fully submitted. Once you proceed to the next screen using the right arrow button below, you cannot go backward. You cannot change any of your answers if you proceed beyond this screen.

We strongly urge you to contact us at <a href="https://example.com/https://example.com happily send you a pdf copy of your narrative that you can share with your leadership, Board, or other interested parties. If you need to make any corrections or change any of your answers, you can use the Table of Contents feature to navigate to the appropriate section of the narrative.

Once you are fully confident that your answers are final, return to this screen then click the right arrow button below to officially submit your narrative.

Subject: Clarification Required - Washington Adventist FY 19 CB Narrative

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thank you for submitting Washington Adventist Hospital's FY 2019 Community Benefit Narrative Report. Upon reviewing your report, we require clarification of certain issues:

- In response to Question 81 on page 17 of the attached, you list "Behavioral Health, including Mental Health and/or Substance Abuse" as a CHNA need being addressed. Did you intend to select Behavioral Health as being addressed by the Diabetes Self-Management Program initiative?
 - Yes, a component of the Diabetes Self-Management Program focuses on the intersection of diabetes/chronic disease management and mental health.
- In response to Question 110 on page 22, you report outcomes of the Hungry HarvestRx Program that include a time period outside of Fiscal Year 2019. If possible, please provide any observed outcomes of the initiative that occurred between July 1, 2018 and June 30, 2019.
 - Our financials are on a calendar year which is how we have been reporting out for the last several years. We have received permission from the HSCRC to report in that way.
- In response to Question 136 on page 26, you report "Dementias, including Alzheimer's Disease" as a CHNA need not addressed by any initiative of the hospital. However, "Dementias..." were not identified as a CHNA need in response to Question 56 on pages 10-11. Please indicate whether "Dementias..." should have been selected in Question 56, or should not have been selected in Question 136.
 - It should not have been selected in question 136.

Please provide your clarifying answers as a response to this message. Thank you for your attention to this matter.
