2

Developing a New Culture for Patient Care— Rapid Change Cycle

Shift to person-centric model	Year 2 Focus (Now)	
Payment reform (Global	Clinical improvement, care coordination, integration	Year 3 Focus
budgets)	planning, and infrastructure development Partner across hospitals, physicians and other providers, post-acute and long-term care, and communities to develop person centered approaches	Implement changes, and
Focus policies on		improve care coordination and chronic care
potentially avoidable utilization		Work with people to keep them healthier, financially and clinically
Stakeholder engagement		
Regulatory infrastructure		
		Engage patients, families, and communities
		Prepare for "Phase 2", and focus on total cost of care
		and extending the model

Strategic Roadmap

State-Level Infrastructure (leverages many other large investments)

Alignment

meaningful, actionable data	Medicare chronic care management	Care o
Develop shared tools	Codes/Medical homes	Impleme
(Patient profiles, enhanced notifications, care needs, others)	Gain sharing & Pay for Performance	driven ro organiza resource
Connect providers	Integrated Care Networks & ACOs	investme costs)
	including Dual Eligibles	Support
	Accelerating all-payer	regional
	opportunities moving away from volume	Technica

coordination & integration (locally-led)

ent providerregional & local ations & es (requires large ents & ongoing

t provider-driven l/local planning

al assistance

State & local outreach efforts

Develop shared tools for engaging consumers

Year 2 Implementation Focus

- Clinical Improvement Focus:
 - Chronic Care
 - Care Coordination
 - High Needs Patients
- Alignment
