COSTING METHODOLOGY

SCHEDULE H, PART I, LINE 7

MARYLAND'S REGULATORY SYSTEM CREATES A UNIQUE PROCESS FOR HOSPITAL

PAYMENT THAT DIFFERS FROM THE REST OF THE NATION. THE HEALTH SERVICES

COST REVIEW COMMISSION, (HSCRC) DETERMINES PAYMENT THROUGH A RATE SETTING

PROCESS AND ALL PAYORS, INCLUDING GOVERNMENTAL PAYORS, PAY THE SAME

AMOUNT FOR THE SAME SERVICES DELIVERED AT THE SAME HOSPITAL. MARYLAND'S

UNIQUE ALL PAYOR SYSTEM INCLUDES A METHOD FOR REFERENCING UNCOMPENSATED

CARE IN EACH PAYORS' RATES, WHICH DOES NOT ENABLE MARYLAND HOSPITALS TO

BREAKOUT ANY OFFSETTING REVENUE RELATED TO UNCOMPENSATED CARE.

COMMUNITY BENEFIT EXPENSES ARE EQUAL TO MEDICAID REVENUES IN MARYLAND, AS SUCH, THE NET EFFECT IS ZERO. ADDITIONALLY, NET REVENUES FOR MEDICAID SHOULD REFLECT THE FULL IMPACT ON THE HOSPITAL OF ITS SHARE OF THE MEDICAID ASSESSMENT.

BAD DEBT EXPENSE REPORTING IN MARYLAND

SCHEDULE H, PART III, LINE 2 AND 3

THE HEALTH SERVICES COST REVIEW COMMISSION (HSCRC) STARTED SETTING HOSPITAL RATES IN 1974. AT THAT TIME, THE HSCRC APPROVED RATES APPLIED ONLY TO COMMERCIAL INSURERS. IN 1977, THE HSCRC NEGOTIATED A WAIVER FROM MEDICARE HOSPITAL PAYMENT RULES FOR MARYLAND HOSPITALS TO BRING THE FEDERAL MEDICARE PAYMENTS UNDER HSCRC CONTROL.

IN 2014, MARYLAND'S WAIVER WITH MEDICARE WAS RENEGOTIATED AND UPDATED TO REFLECT THE CURRENT HEALTHCARE ENVIRONMENT. UNDER THIS NEW WAIVER, SEVERAL CRITERIA WERE ESTABLISHED TO MONITOR THE SUCCESS OF THE SYSTEM IN CONTROLLING HEALTHCARE COSTS AND THE CONTINUANCE OF THE WAIVER ITSELF:

- 1. REVENUE GROWTH PER CAPITA
- MEDICARE HOSPITAL REVENUE PER BENEFICIARY 2. .

THE PROVISION FOR BAD DEBTS IS BASED UPON MANAGEMENT'S ASSESSMENT OF HISTORICAL AND EXPECTED NET COLLECTIONS CONSIDERING HISTORICAL BUSINESS AND ECONOMIC CONDITIONS, TRENDS IN HEALTHCARE COVERAGE, AND OTHER COLLECTION INDICATORS. PERIODICALLY THROUGHOUT THE YEAR, MANAGEMENT ASSESSES THE ADEQUACY OF THE ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS BASED UPON HISTORICAL WRITE-OFF EXPERIENCE BY PAYOR CATEGORY. THE RESULTS OF THIS REVIEW ARE THEN USED TO MAKE MODIFICATIONS TO THE PROVISION FOR BAD DEBTS AND TO ESTABLISH AN ALLOWANCE FOR UNCOLLECTIBLE RECEIVABLES. AFTER COLLECTION OF AMOUNTS DUE FROM INSURERS, THE CORPORATION FOLLOWS INTERNAL GUIDELINES FOR PLACING CERTAIN PAST DUE BALANCES WITH COLLECTION AGENCIES.

FOR RECEIVABLES ASSOCIATED WITH SERVICES PROVIDED TO PATIENTS WHO HAVE THIRD-PARTY COVERAGE, THE CORPORATION ANALYZES CONTRACTUALLY DUE AMOUNTS AND PROVIDES AN ALLOWANCE FOR BAD DEBTS, ALLOWANCE FOR CONTRACTUAL ADJUSTMENTS, PROVISION FOR BAD DEBTS, AND CONTRACTUAL ADJUSTMENTS ON ACCOUNTS FOR WHICH THE THIRD-PARTY PAYOR HAS NOT YET PAID OR FOR PAYORS WHO ARE KNOWN TO BE HAVING FINANCIAL DIFFICULTIES THAT MAKE THE

REALIZATION OF AMOUNTS DUE UNLIKELY. FOR RECEIVABLES ASSOCIATED WITH SELF-PAY PATIENTS OR WITH BALANCES REMAINING AFTER THE THIRD-PARTY COVERAGE HAD ALREADY PAID, THE CORPORATION RECORDS A SIGNIFICANT PROVISION FOR BAD DEBTS IN THE PERIOD OF SERVICE ON THE BASIS OF ITS HISTORICAL COLLECTIONS, WHICH INDICATES THAT MANY PATIENTS ULTIMATELY DO NOT PAY THE PORTION OF THEIR BILL FOR WHICH THEY ARE FINANCIALLY RESPONSIBLE. THE DIFFERENCE BETWEEN THE DISCOUNTED RATES AND THE AMOUNTS COLLECTED AFTER ALL REASONABLE COLLECTION EFFORTS HAVE BEEN EXHAUSTED IS CHARGED AGAINST THE ALLOWANCE FOR DOUBTFUL ACCOUNTS.

THE FIVE COUNTIES OF THE MID-SHORE COMPRISE 20% OF THE LANDMASS OF THE STATE OF MARYLAND AND 2% OF THE POPULATION. THE ENTIRE REGION HAS OVER 4,400 EMPLOYERS WITH NEARLY 45,000 WORKERS. ONLY 50 OF THOSE EMPLOYERS EMPLOY 100 OR MORE WORKERS.

THE ECONOMIC CONDITION VARIES SIGNIFICANTLY THROUGHOUT THE REGION,

ESPECIALLY FOR CAROLINE, DORCHESTER, AND KENT COUNTIES. IT SHOULD BE

NOTED THAT TALBOT COUNTY APPEARS TO HAVE A SIGNIFICANTLY HIGHER MEDIAN

INCOME THAN CAROLINE AND DORCHESTER, HOWEVER, A LARGE PERCENTAGE OF THE

POPULATION HAS INCOMES IN LINE WITH THOSE OF CAROLINE AND DORCHESTER. THE

FIGURES FOR TALBOT ARE SOMEWHAT SKEWED DUE TO LARGE INCOMES OF A FEW

INDIVIDUAL FAMILIES AND HIGH NET WORTH INDIVIDUALS.

UMSRH'S SERVICE AREA HAS A HIGHER PERCENTAGE OF POPULATION AGED 65 AND OLDER AS COMPARED TO MARYLAND OVERALL. TALBOT COUNTY HAS A 27.2% RATE FOR THIS AGE GROUP AND KENT COUNTY HAS 25.3% OF ITS RESIDENTS AGE 65 YEARS OR OLDER. THESE RATES ARE 65% HIGHER THAN MARYLAND'S PERCENTAGE, AND HIGHER THAN OTHER RURAL AREAS IN THE STATE BY ALMOST A QUARTER. TODAY, MORE THAN

THE ANALYSIS OF LOCAL DATA INDICATED THAT DIABETES, HEART DISEASE, CANCER, BEHAVIORAL HEALTH AND ACCESS TO CARE WERE ALL HEALTH IMPROVEMENT PRIORITIES FOR THE MID-SHORE. AFTER CAREFUL REVIEW OF COUNTY HEALTH DATA, THE MID-SHORE SHIP COALITION PRIORITIZED THE POTENTIAL HEALTH IMPROVEMENT AREAS AND DECIDED TO FOCUS THE COALITION'S EFFORTS ON THREE AREAS: (1) ADOLESCENT OBESITY, (2) ADOLESCENT TOBACCO USE, AND (3) DIABETES RELATED EMERGENCY DEPARTMENT VISITS. THE COALITION IS COMMITTED TO EXAMINING WHAT EVIDENCE-BASED INITIATIVES CAN IMPROVE THE COUNTY'S HEALTH IN THESE THREE AREAS RELATED TO RACIAL, ETHNIC AND OTHER DEMOGRAPHIC AND GEOGRAPHIC-RELATED HEALTH DISPARITIES.

#### FORM 990 REVIEW PROCESS

FORM 990, PART VI, SECTION B, LINE 11B

UMMS ENGAGES THE ACCOUNTING FIRM GRANT THORNTON TO PREPARE AND REVIEW THE IRS FORM 990 FOR UMMS AND ITS AFFILIATES. INFORMATION NEEDED TO COMPLETE THE RETURN IS GATHERED BY ACCOUNTING PERSONNEL IN THE FINANCE SHARED SERVICES DEPARTMENT UNDER THE SUPERVISION OF THE UMMS TAX DIRECTOR AND PROVIDED TO GRANT THORNTON.

ONCE A DRAFT RETURN IS PREPARED, IT UNDERGOES MULTIPLE LEVELS OF REVIEW BOTH INTERNALLY BY UMMS TAX & FINANCE PERSONNEL, AND EXTERNALLY BY GRANT THORNTON, INCLUDING AT THE PARTNER LEVEL. FOLLOWING ANY NECESSARY CHANGES TO THE RETURN, A FINAL DRAFT IS REVIEWED BY EACH AFFILIATE'S VICE PRESIDENT OF FINANCE AND/OR CFO.

PRIOR TO FILING THE IRS FORM 990, THE ORGANIZATION'S BOARD CHAIRMAN,
TREASURER, AUDIT COMMITTEE CHAIRMAN, EXECUTIVE COMMITTEE CHAIRMAN OR
OTHER MEMBER OF THE BOARD WITH SIMILAR AUTHORITY WILL REVIEW THE IRS FORM
990. ALL BOARD MEMBERS ARE PROVIDED WITH A COPY OF THE FINAL IRS FORM 990
BEFORE FILING.

CONFLICT OF INTEREST POLICY MONITORING & ENFORCEMENT

FORM 990, PART VI, SECTION B, LINE 12C

THE ORGANIZATION'S OFFICERS, DIRECTORS AND MEDICAL STAFF MEMBERS, AS

APPLICABLE, SHALL DISCLOSE CONFLICTS OF INTEREST OR POTENTIAL CONFLICTS

OF INTEREST BETWEEN THEIR PERSONAL INTERESTS AND THE INTERESTS OF THE

ORGANIZATION, OR ANY ENTITY CONTROLLED BY OR OWNED IN SUBSTANTIAL PART BY

THE ORGANIZATION.

A QUESTIONNAIRE WHICH DISCLOSES POTENTIAL CONFLICTS OF INTEREST IS

DISTRIBUTED ANNUALLY TO OFFICERS, DIRECTORS AND KEY EMPLOYEES. THE

GENERAL COUNSEL OF UMMS REVIEWS THE RESPONSES FOR UMMS AND CERTAIN OTHER

AFFILIATES. THE CEO OR CFO OF EACH OF THE OTHER ENTITIES IN THE UMMS

SYSTEM REVIEWS THE RESPONSES FOR THOSE ENTITIES.

THE GENERAL COUNSEL, IN CONSULTATION WITH THE AUDIT COMMITTEE, IF

NECESSARY, WOULD DETERMINE IF A CONFLICT OF INTEREST EXISTED. WITH

RESPECT TO THE OTHER ENTITIES IN THE UMMS SYSTEM, THE GENERAL COUNSEL MAY

BE CALLED FOR CONSULT. IF SO, THE GENERAL COUNSEL MAY CONSULT THE AUDIT

COMMITTEE, IF NECESSARY.

WHENEVER A CONFLICT OR POTENTIAL CONFLICT OF INTEREST EXISTS, THE NATURE OF THE CONFLICT OR POTENTIAL CONFLICT OF INTEREST MUST BE DISCLOSED IN WRITING TO THE ORGANIZATION'S BOARD, BOARD COMMITTEE, AN OFFICER OF THE ORGANIZATION OR OTHER APPROPRIATE EXECUTIVE. SUCH INDIVIDUAL HAVING A POTENTIAL CONFLICT OF INTEREST SHALL PLAY NO ROLE ON BEHALF OF THE ORGANIZATION, OR ANY ORGANIZATION CONTROLLED OR SUBSTANTIALLY OWNED, IN ANY TRANSACTION IN WHICH A CONFLICT EXISTS.

ALL INVITATIONS FOR BIDS, PROPOSALS OR SOLICITATIONS FOR OFFERS INCLUDE THE FOLLOWING PROVISION:

ANY VENDOR, SUPPLIER OR CONTRACTOR MUST DISCLOSE ANY ACTUAL OR POTENTIAL TRANSACTION WITH ANY ORGANIZATION OFFICER, DIRECTOR, EMPLOYEE OR MEMBER OF THE MEDICAL STAFF, INCLUDING FAMILY MEMBERS WITHIN FIVE DAYS OF THE TRANSACTION. FAILURE TO COMPLY WITH THIS PROVISION IS A MATERIAL BREACH OF AGREEMENT.

IN ADDITION, A BOARD DISCLOSURE REPORT IS FILED WITH THE MARYLAND HEALTH SERVICES COST REVIEW COMMISSION ON AN ANNUAL BASIS SHOWING ANY BUSINESS TRANSACTIONS BETWEEN THE BOARD MEMBERS AND THE ORGANIZATION.

PROCESS FOR DETERMINING COMPENSATION

FORM 990, PART VI, SECTION B, LINES 15A & 15B

THE EXECUTIVES RECEIVED COMPENSATION FROM A RELATED ORGANIZATION.

THE ORGANIZATION DETERMINES THE EXECUTIVE COMPENSATION PAID TO ITS EXECUTIVES IN THE FOLLOWING MANNER PRESCRIBED IN THE IRS REGULATIONS:

EXECUTIVE COMPENSATION PACKAGES ARE DETERMINED BY A COMMITTEE OF THE BOARD THAT IS COMPOSED ENTIRELY OF BOARD MEMBERS WHO HAVE NO CONFLICT OF INTEREST. THE COMMITTEE ACQUIRES CREDIBLE COMPARABILITY MARKET DATA CONCERNING THE COMPENSATION PACKAGES OF SIMILARLY SITUATED EXECUTIVES.

THE COMMITTEE CAREFULLY REVIEWS THAT DATA, THE EXECUTIVE'S PERFORMANCE AND THE PROPOSED COMPENSATION PACKAGES DURING THE DECISION MAKING PROCESS. THE COMMITTEE MEMORIALIZES ITS DELIBERATIONS IN DETAILED MINUTES REVIEWED AND ADOPTED AT THE NEXT-FOLLOWING MEETING.

THE COMMITTEE SEEKS AN OPINION OF COUNSEL THAT IT HAS MET THE
REQUIREMENTS OF THE IRS INTERMEDIATE SANCTIONS REGULATIONS. THIS PROCESS
IS USED TO DETERMINE THE COMPENSATION PACKAGES FOR ALL MANAGEMENT
EMPLOYEES FROM THE VICE PRESIDENT LEVEL AND UP.

### **Independent Auditors' Report**

The Board of Directors
University of Maryland Medical System Corporation:

We have audited the accompanying consolidated financial statements of the University of Maryland Medical System Corporation and Subsidiaries (the Corporation), which comprise the consolidated balance sheets as of June 30, 2018 and 2017, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the University of Maryland Medical System Corporation and Subsidiaries as of June 30, 2018 and 2017, and the results of their operations, changes in net assets and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

#### (1) Organization and Summary of Significant Accounting Policies

### (a) Organization

The University of Maryland Medical System Corporation (the Corporation or UMMS) is a private, not-for-profit corporation providing comprehensive healthcare services through an integrated regional network of hospitals and related clinical enterprises. UMMS was created in 1984 when its founding hospital was privatized by the State of Maryland. Over its 30-year history, UMMS evolved into a multi-hospital system with academic, community and specialty service missions reaching primarily across Maryland. In continuing partnership with the University of Maryland School of Medicine, UMMS operates healthcare programs that improve the physical and mental health of thousands of people each day.

The accompanying consolidated financial statements include the accounts of the Corporation, its wholly owned subsidiaries, and entities controlled by the Corporation. In addition, the Corporation maintains equity interests in various unconsolidated joint ventures, which are described in note 4. The significant operating divisions of the Corporation are described in further detail below.

All material intercompany balances and transactions have been eliminated in consolidation.

### (i) Recent Acquisitions and Divestitures

Effective September 1, 2017, the Corporation entered into an affiliation agreement with Dimensions Healthcare System and Subsidiaries (DHS) whereby the Corporation became the sole corporate member of DHS. The Medical Center, which is a major component of UMMS, is a 767-bed academic medical center located in Baltimore. The Medical Center has served as the teaching hospital of the School of Medicine of the University System of Maryland, Baltimore since 1823. While the Corporation is not affiliated with the University System of Maryland, clinical faculty members of the School of Medicine serve as medical staff of the Medical Center.

The Medical Center is comprised of two operating divisions: University Hospital, which includes the Greenebaum Cancer Center, and Shock Trauma Center. University Hospital, which generates approximately 80% of the Medical Center's admissions and patient days, is a tertiary teaching hospital providing over 70 clinical services and programs. The Greenebaum Cancer Center specializes in the treatment of cancer patients and is a site for clinical cancer research. The Shock Trauma Center, which specializes in emergency treatment of patients suffering severe trauma, generates approximately 20% of admissions and patient days.

### (b) Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

#### (c) Cash and Cash Equivalents

Cash and cash equivalents, excluding amounts shown within investments and assets limited as to use, consist of cash and interest-bearing deposits with maturities of three months or less from the date of purchase. Cash and cash equivalent balances may exceed amounts insured by federal agencies and, therefore, bear a risk of loss. The Corporation has not experienced such losses on these funds.

#### (d) Investments and Assets Limited as to Use

The Corporation's investment portfolios are classified as trading and are reported in the consolidated balance sheets at their fair value, based on quoted market prices, at June 30, 2018 and 2017. Unrealized holding gains and losses on trading securities with readily determinable market values are included in nonoperating income. Investment income, including realized gains and losses, is included in nonoperating income in the accompanying consolidated statements of operations.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

Assets limited as to use include investments set aside at the discretion of the board of directors for the replacement or acquisition of property and equipment, investments held by trustees under bond indenture agreements and self-insurance trust arrangements, and assets whose use is restricted by donors. Such investments are stated at fair value. Amounts required to meet current liabilities have been included in current assets in the consolidated balance sheets. Changes in fair values of donor-restricted investments are recorded in temporarily restricted net assets unless otherwise required by the donor or state law.

Assets limited as to use also include the Corporation's economic interests in financially interrelated organizations (note 12).

Alternative investments, which the Corporation defines to include multi-strategy commingled funds, hedge funds, hedge fund-of-funds, and private equity investments, are recorded under the equity method of accounting. Underlying securities of these alternative investments may include certain debt and equity securities that are not readily marketable. Because certain investments are not readily marketable, their fair value is subject to additional uncertainty, and therefore, values realized upon disposition may vary significantly from current reported values.

Investments are exposed to certain risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the value of investment securities could occur in the near term, and these changes could materially differ from the amounts reported in the accompanying consolidated financial statements.

#### (e) Inventories

Inventories, consisting primarily of drugs and medical/surgical supplies, are carried at the lower of cost or market, on a first-in, first-out basis.

### (f) Economic Interests in Financially Interrelated Organizations

The Corporation recognizes its rights to assets held by recipient organizations, which accept cash or other financial assets from a donor and agree to use those assets on behalf of or transfer those assets, the return on investment of those assets, or both, to the Corporation. Changes in the Corporation's economic interests in these financially interrelated organizations are recognized in the consolidated statements of changes in net assets.

#### (g) Property and Equipment

Property and equipment are stated at cost or estimated fair value at date of contribution, less accumulated depreciation. Depreciation is provided on a straight-line basis over the estimated useful lives of the depreciable assets using the half-year convention. The estimated useful lives of the assets are as follows:

Buildings 20 to 40 years
Building and leasehold improvements 5 to 15 years
Equipment 3 to 15 years

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

Interest costs incurred on borrowed funds less interest income earned on the unexpended bond proceeds during the period of construction are capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets, such as land, buildings, or equipment are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

### (h) Deferred Financing Costs

Costs incurred related to the issuance of long-term debt, which are included in long-term debt, are deferred and are amortized over the life of the related debt agreements or the related letter of credit agreements using the effective-interest method.

### (i) Goodwill and Intangible Assets

Intangible assets include amounts recognized in connection with acquisitions. Intangible assets are initially valued at fair market value using generally accepted valuation methods. Amortization is recognized on a straight-line basis over the estimated useful life of the intangible assets. Intangible assets with definite and indefinite lives are reviewed for impairment if indicators of impairment arise.

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized. The Corporation has adopted Accounting Standards Update (ASU) No. 2017-04, Simplifying the Test for Goodwill Impairment, for the year ended June 30, 2018. Goodwill is evaluated for impairment at least annually on June 30, in accordance with ASC Topic 350, Intangibles – Goodwill and Other, using a qualitative assessment (Step 0) to determine whether there are events or circumstances that indicate it is more likely than not that the fair value of the reporting unit is less than its carrying value, which determines whether a quantitative (Step 1) goodwill impairment test is necessary. Under the quantitative assessment, the fair value of the reporting unit is compared with its carrying value (including goodwill). If the fair value of the reporting unit is less than its carrying value, goodwill impairment exists for the reporting unit and the entity must record an impairment loss.

The Corporation has two reporting units; one of which includes all Health Care Delivery assets and the other that includes Health Plan assets. Based on the Corporation's qualitative assessment, it was determined that it was more likely than not that the fair values of each reporting unit exceeded their respective carrying value for the year ended June 30, 2017. Based on the Corporation's qualitative assessment, it was determined that the fair value of the Health Care Delivery reporting unit was more likely than not greater than its carrying value for the year ended June 30, 2018. The Health Plans reporting unit has experienced increasing losses in the fiscal year ended June 30, 2018 primarily related to medical claims expenses in excess of premium revenues for its Medicare Advantage Plan, and as a result the Corporation engaged a third party to perform the Step 1 impairment test using the income approach. The income approach provides an estimation of the fair value of an asset based on market participant expectations about the cash flows that asset would generate over its remaining

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

useful life. The cash flow models were developed using projected revenues and expenses based on historical data, industry projections as well as management expectations.

Based on the results of the impairment test, the Corporation recognized a loss on impairment of \$12,794,000 related to goodwill and \$33,000,000 related to an intangible asset (Medicaid Contract).

The changes in the carrying amount of goodwill are as follows (in thousands):

	_	Health Care Delivery	Health Plans
Goodwill at June 30, 2016 Acquisitions Write-downs	\$ 	48,810 — —	42,019 — —
Goodwill at June 30, 2017		48,810	42,019
Acquisitions Write-downs	_		(12,794)
Goodwill at June 30, 2018	\$_	48,810	29,225

### (j) Contingent Consideration for Business Acquisitions

Acquisitions may include contingent consideration payments based on future financial measures of an acquired company. Contingent consideration is required to be recognized at fair value as of the acquisition date. The fair value of these liabilities is estimated based on financial projections of the acquired companies and estimated probabilities of achievement and discount the liabilities to present value using a weighted average cost of capital. Contingent consideration is valued using significant inputs that are not observable in the market, which are defined as Level 3 inputs pursuant to fair value measurement accounting. At each reporting date, the contingent consideration obligation is revalued to estimated fair value and changes in fair value subsequent to the acquisition are reflected in operating income in the consolidated statements of operations. Changes in the fair value of contingent consideration obligations may result from changes in discount periods and rates, changes in the timing and amount of revenue and/or earnings estimates, and changes in probability assumptions with respect to the likelihood of achieving the various earn-out criteria. The Corporation recorded a contingent liability of \$35,700,000 related to an earn-out clause in connection with the August 15, 2015 acquisition of UM Health Plans. This earn-out could result in an undiscounted payment ranging from \$0 to \$106,500,000 depending on the performance and membership of both plans. The final computation of the earn-out is not to be determined until March 31, 2020. Based on the earn-out calculation, the Corporation determined that the fair value of the contingent liability was \$0 and \$35,700,000 at June 30, 2018 and 2017, respectively. As such, the Corporation recognized a gain of \$35,700,000 related to the change in fair value of the contingent consideration during the fiscal year ended June 30, 2018.

Notes to Consolidated Financial Statements

### (k) Impairment of Long-Lived Assets

Long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the consolidated balance sheets and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the consolidated balance sheets.

No impairment losses were recorded for the years ended June 30, 2018 or 2017.

#### (I) Investments in Joint Ventures

When the Corporation does not have a controlling interest in an entity, but exerts a significant influence over the entity, the Corporation applies the equity method of accounting.

#### (m) Self-Insurance

Under the Corporation's self-insurance programs (general and professional liability, workers' compensation, and employee health and long-term disability benefits), claims are reflected as a present-value liability based upon actuarial estimates and reported and incurred but not reported claims analysis, taking into consideration the severity of incidents and the expected timing of claim payments.

#### (n) Net Assets

The Corporation classifies net assets based on the existence or absence of donor-imposed restrictions. Unrestricted net assets represent contributions, gifts, and grants, which have no donor-imposed restrictions or which arise as a result of operations. Temporarily restricted net assets are subject to donor-imposed restrictions that must or will be met either by satisfying a specific purpose and/or passage of time. Permanently restricted net assets are subject to donor-imposed restrictions that must be maintained in perpetuity. Generally, the donors of these assets permit the use of all or part of the income earned on related investments for specific purposes. The restrictions associated with these net assets generally pertain to patient care, specific capital projects, and funding of specific hospital operations and community outreach programs.

#### (o) Net Patient Service Revenue and Provision for Uncollectible Accounts

Patient service revenue for the Medical Center, ROI, Midtown, Baltimore Washington, Shore Regional, Charles Regional, St. Joseph, Upper Chesapeake, and Capital Region reflects actual charges to patients based on rates established by the state of Maryland Health Services Cost Review Commission (HSCRC) in effect during the period in which the services are rendered, net of contractual adjustments. Contractual adjustments represent the difference between amounts billed as patient service revenue and amounts allowed by third-party payors. Such adjustments include discounts on charges as permitted by the HSCRC. See note 18 for further discussion on the HSCRC and regulated rates.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

The Corporation records revenues and accounts receivable from patients and third-party payors at their estimated net realizable value. Revenue is reduced for anticipated discounts under contractual arrangements and for charity care. An estimated provision for bad debts is recorded in the period the related services are provided based upon anticipated uncompensated care, and is adjusted as additional information becomes available.

The provision for bad debts is based upon management's assessment of historical and expected net collections considering historical business and economic conditions, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible accounts based upon historical write-off experience by payor category. The results of this review are then used to make modifications to the provision for bad debts and to establish an allowance for uncollectible receivables. After collection of amounts due from insurers, the Corporation follows internal guidelines for placing certain past due balances with collection agencies.

For receivables associated with services provided to patients who have third-party coverage, the Corporation analyzes contractually due amounts and provides an allowance for bad debts, allowance for contractual adjustments, provision for bad debts, and contractual adjustments on accounts for which the third-party payor has not yet paid or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely. For receivables associated with self-pay patients or with balances remaining after the third-party coverage has already paid, the Corporation records a significant provision for bad debts in the period of service on the basis of its historical collections, which indicates that many patients ultimately do not pay the portion of their bill for which they are financially responsible. The difference between the discounted rates and the amounts collected after all reasonable collection efforts have been exhausted is charged against the allowance for doubtful accounts. The change in the allowance for doubtful accounts was as follows during the years ended June 30 (in thousands):

	 2018	2017
Beginning allowance for doubtful accounts	\$ 219,806	202,298
Plus provision for bad debt	174,137	184,597
Less bad debt write-offs	 (174,174)	(167,089)
Ending allowance for doubtful accounts	\$ 219,769	219,806

As of June 30, 2018 and 2017, the Corporation's allowance for doubtful accounts was approximately 33.7% and 36.7%, respectively, as a percentage of patient accounts receivable, net of contractual allowances. The Corporation's provision for bad debts represents 4.5% and 5.3% of net patient service revenue for the years ended June 30, 2018 and 2017, respectively

#### (p) Premium Revenue and Medical Claims Expense

Premium revenue consists of amounts received from the state of Maryland and the Centers for Medicare and Medicaid Services (CMS) by the Corporation's managed care organization for providing medical services to subscribing participants, regardless of services actually performed. The managed

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

care organization provides services primarily to enrolled Medicaid and Medicare beneficiaries. This revenue is recognized ratably over the contractual period for the provision of services. Medical expenses of the managed care organization include actuarially determined estimates of the ultimate costs for both reported claims and claims incurred but unreported and are included in medical claims expense on the consolidated statements of operations.

### (q) Charity Care

The Corporation is committed to providing quality healthcare to all, regardless of one's ability to pay. Patients who meet the criteria of its charity care policy receive services without charge or at amounts less than its established rates. The criteria for charity care consider the household income in relation to the federal poverty guidelines. The Corporation provides services at no charge for patients with adjusted gross income equal to or less than 200% of the federal poverty guidelines. For uninsured patients with adjusted gross income greater than 200% of the federal poverty guidelines, a sliding scale discount is applied. Income and asset information obtained from patient credit reporting data are used to determine patients' ability to pay. The Corporation maintains records to identify and monitor the level of charity care it furnished under its charity care policy. The charity care policies of the new affiliates are generally consistent with that of the Corporation's policy.

Due to the complexity of the eligibility process, the Corporation provides eligibility services to patients free of charge to assist in the qualification process. These eligibility services include, but are not limited to, the following:

- Financial assistance brochures and other information are posted at each point of service. When patients have questions or concerns, they are encouraged to call a toll-free number to reach customer service representatives during the business day. Financial assistance programs are published on the Corporation's Web site and included on the statements provided to patients.
- The Corporation offers assistance to patients in completing the applications for Medicaid or other
  government payment assistance programs, or applying for care under the Corporation's charity
  care policy, if applicable. The Corporation also employs an external firm to assist in the eligibility
  process.
- Any patient, whether covered by insurance or not, may meet with a UMMS representative and receive financial counseling from UMMS' dedicated financial assistance unit.

The Corporation recognizes that a large number of uninsured and insured patients meet the charity care guidelines but do not respond to the Corporation's attempts to obtain necessary financial information. In these instances, the Corporation uses credit reporting data to properly classify these unpaid balances as charity care as opposed to bad debt expense. Utilization of income and asset information and credit reporting data indicate the vast majority of amounts reported as provision for bad debts represent amounts due from patients that would otherwise qualify for charity benefits but do not respond to the Corporation's attempts to obtain the necessary financial information. In these cases, reasonable collection efforts are pursued, but yield few collections. Amounts determined to meet the criteria under the charity care policy are not reported as net patient service revenue.

The amounts reported as charity care represent the cost of rendering such services. Costs incurred are estimated based on the cost-to-charge ratio for each hospital and applied to charity care charges. The

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

Corporation estimates the total direct and indirect costs to provide charity care were \$48,479,000 and \$36,195,000 for the years ended June 30, 2018 and 2017, respectively.

### (r) Nonoperating Income and Expenses, Net

Other activities that are only indirectly related to the Corporation's primary business of delivering healthcare services are recorded as nonoperating income and expenses, and include investment income, equity in the net income of joint ventures, general donations and fund-raising activities, inherent contributions, changes in fair value of investments, changes in fair value of undesignated interest rate swaps, settlement payments on interest rate swaps that do not qualify for hedge accounting treatment, and loss on early extinguishment of debt. Settlement payments on interest rate swaps were approximately \$19,227,000 and \$23,469,000 for the years ended June 30, 2018 and 2017, respectively, and are reported within other nonoperating losses, net.

#### (s) Derivative Financial Instruments

The Corporation records derivative and hedging activities on the consolidated balance sheets at their respective fair values.

The Corporation utilizes derivative financial instruments to manage its interest rate risks associated with long-term tax-exempt debt. The Corporation does not hold or issue derivative financial instruments for trading purposes.

The Corporation's specific goals are to (a) manage interest rate sensitivity by modifying the reprising or maturity characteristics of some of its tax-exempt debt, and (b) lower unrealized appreciation or depreciation in the market value of the Corporation's fixed-rate tax-exempt debt when that market value is compared with the cost of the borrowed funds. The effect of this unrealized appreciation or depreciation in market value, however, will generally be offset by the income or loss on the derivative instruments that are linked to the debt.

The Corporation formally documents all hedge relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. On the date the derivative contract is entered into, the Corporation may designate the derivative as either a hedge of the fair value of a recognized or forecasted liability (fair value hedge) or a hedge of the variability of cash flows to be received or paid related to a recognized liability (cash flow hedge), provided the derivative instrument meets certain criteria related to its effectiveness. This process includes linking all derivatives that are designated as fair value or cash flow hedges to specific liabilities on the consolidated balance sheets. The Corporation also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

All derivative instruments are reported as other assets or interest rate swap liabilities in the consolidated balance sheets and measured at fair value. Derivatives not designated as hedges or not meeting effectiveness criteria are carried at fair value with changes in the fair value recognized in other nonoperating income and expenses. For the years ended June 30, 2018 and 2017, none of the Corporation's derivatives qualify for hedge accounting.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

Changes in the fair value of derivative instruments are included in or excluded from the excess of revenues over expenses depending on the use of the derivative and whether it qualifies for hedge accounting treatment. Changes in the fair value of a derivative that is designated and qualifies as a fair value hedge, along with the changes in the fair value of the hedged item related to the risk being hedged, are included in the excess of revenues over expenses. Changes in the fair value of a derivative that is designated as a cash flow hedge are excluded from the excess of revenues over expenses to the extent that the hedge is effective until the excess of revenues over expenses is affected by the variability of cash flows in the hedged transaction. Changes in the fair value that relate to ineffectiveness are included in the excess of revenues over expenses as interest expense.

### (t) Excess of Revenue over Expenses

The consolidated statements of operations includes a performance indicator, excess of revenue over expenses. Changes in unrestricted net assets that are excluded from the performance indicator, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions, which, by donor restrictions, were to be used for the purpose of acquiring such assets), changes in the funded status of defined benefit pension plans, amortization of accumulated loss of discontinued designated interest rate swaps, and other items that are required by generally accepted accounting principles to be reported separately.

#### (u) Income Taxes

The Corporation and most of its subsidiaries are not-for-profit corporations formed under the laws of the State of Maryland, organized for charitable purposes and recognized by the Internal Revenue Service as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code) pursuant to Section 501(a) of the Code. The effect of the taxable status of its for-profit subsidiaries is not material to the consolidated financial statements.

The Corporation had net operating loss carryforwards on for-profit and unrelated business activities of approximately \$89,890,000 and \$75,518,000 as of June 30, 2018 and June 30, 2017, respectively, which expire at various dates through 2031. The Corporation's deferred tax assets, which consist primarily of the net operating loss carryforwards, are approximately \$22,345,000 at June 30, 2018 and \$31,028,000 at June 30, 2017 were fully reserved as they are not expected to be utilized. The Corporation had a deferred tax liability in the amount of \$3,027,000 and \$17,356,000 related to indefinite-lived intangibles at June 30, 2018 and June 30, 2017, respectively, which is included in other long-term liabilities on the accompanying consolidated balance sheets.

The Corporation follows a threshold of more likely than not for recognition and derecognition of tax positions taken or expected to be taken in a tax return. Management does not believe that there are any unrecognized tax liabilities or benefits that should be recognized.

On December 22, 2017, the President signed into law H.R.1, originally known as the Tax Cuts and Jobs Act, as such the Corporation's effective tax rate was reduced from 35% to 21% during the fiscal year 2018. The new law includes several provisions that result in substantial changes to the tax treatment of tax-exempt organizations and their donors. The Company has reviewed these provisions and the potential impact and has concluded the enactment of H.R.1 will not have a material effect on the operations of the organization.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

### (v) Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Corporation are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the promise becomes unconditional. Contributions are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction is satisfied, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Such amounts are classified as other revenue or transfers and additions to property and equipment.

Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved. An allowance for uncollectible contributions receivable is provided based upon management's judgment including such factors as prior collection history, type of contributions, and nature of fund-raising activity.

The Corporation follows accounting guidance for classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of the Uniform Prudent Management Institutional Funds Act of 2006 (UPMIFA).

### (w) Fair Value Measurements

The following methods and assumptions were used by the Corporation in estimating the fair value of its financial instruments:

Cash and cash equivalents, accounts receivable, assets limited as to use, investments, trade accounts payable, accrued payroll and benefits, other accrued expenses, and advances from third-party payors — The carrying amounts reported in the consolidated balance sheets approximate the related fair values.

Pension plan assets – The Corporation applies Accounting Standards Update (ASU) No. 2009-12, Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent), to its pension plan assets. The guidance permits, as a practical expedient, fair value of investments within its scope to be estimated using the net asset value (NAV) or its equivalent. The alternative investments classified within the fair value hierarchy have been recorded using the NAV.

The Corporation discloses its financial assets, financial liabilities, and fair value measurements of nonfinancial items according to the fair value hierarchy required by Generally Accepted Accounting Principles that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

 Level 1 inputs are quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Corporation has the ability to access at the measurement date.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

- Level 2 inputs are inputs other than quoted market prices including within Level 1 that are
  observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified
  (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or
  liability.
- Level 3 inputs are unobservable inputs for the asset or liability.

Assets and liabilities classified as Level 1 are valued using unadjusted quoted market prices for identical assets or liabilities in active markets. The Corporation uses techniques consistent with the market approach and the income approach for measuring fair value of its Level 2 and Level 3 assets and liabilities. The market approach is a valuation technique that uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach generally converts future amounts (cash flows or earnings) to a single present value amount (discounted).

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

As of June 30, 2018 and 2017, the Level 2 assets and liabilities listed in the fair value hierarchy tables below utilize the following valuation techniques and inputs:

### (i) Cash Equivalents

The fair value of investments in cash equivalent securities, with maturities within three months of the date of purchase, is determined using techniques that are consistent with the market approach. Significant observable inputs include reported trades and observable broker-dealer quotes.

### (ii) U.S. Government and Agency Securities

The fair value of investments in U.S. government, state, and municipal obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads.

#### (iii) Corporate Bonds

The fair value of investments in U.S. and international corporate bonds, including commingled funds that invest primarily in such bonds and foreign government bonds, is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker-dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options.

### (iv) Collateralized Corporate Obligations

The fair value of collateralized corporate obligations is primarily determined using techniques consistent with the income approach, such as a discounted cash flow model. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

#### (v) Derivative Liabilities

The fair value of derivative contracts is primarily determined using techniques consistent with the market approach. Derivative contracts include interest rate, credit default, and total return swaps. Significant observable inputs to valuation models include interest rates, treasury yields, volatilities, credit spreads, maturity, and recovery rates.

### (x) Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

### (y) Going Concern

Management evaluates whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern within one year after the date the financial statements are issued. As of the date of this report, there are no conditions or events that raise substantial doubt about the Corporation's ability to continue as a going concern.

#### (z) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### (aa) New Accounting Pronouncements

The Financial Accounting Standards Board (FASB) issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This ASU establishes principles for reporting useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The ASU requires that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU No. 2014-09 is effective for fiscal year 2019. The Corporation expects to record a decrease in net patient service revenue related to self-pay patients and a corresponding decrease in bad debt expense upon the adoption of the standard. The Corporation will adopt ASU No. 2014-09 on July 1, 2018 and as a result, substantially all amounts that were previously presented as provision for bad debts in the Corporation's consolidated statements of operations will now be considered an implicit price concession resulting in a reduction in patient service revenue net of contractual adjustments. Other than described above, the Corporation is currently finalizing its assessment of the impact on the Corporation's consolidated balance sheets, results of operations or cash flows. However, expanded disclosures will be required.

The FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which will require lessees to recognize most leases on the balance sheet, increasing their reported assets and liabilities – sometimes very

significantly. This update was developed to provide financial statement users with more information about an entity's leasing activities, and will require changes in processes and internal controls. The adoption of ASU No. 2016-02 is effective fiscal year 2020, and will require application of the new guidance at the beginning of the earliest comparable period presented. Early adoption is permitted. The Corporation is in the process of assessing the impact the adoption of this standard will have on the consolidated financial statements.

The FASB issued ASU No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*, to improve the current net asset classification requirements and information presented in financial statements and notes about a not-for-profit entity's liquidity, financial performance, and cash flows. This update requires not-for-profit entities to present two classes of net assets (net assets with donor restrictions and net assets without donor restrictions), rather than the three classes of net assets currently required, and other qualitative information regarding the entity's liquidity, financial performance, and cash flows. The amendments in this update are effective for annual financial statements issued for fiscal years beginning after December 15, 2017 and for interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted. The Corporation is in the process of assessing the impact the adoption of this standard will have on the consolidated financial statements.

In March 2017, the FASB issued ASU No. 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost.* This guidance amends ASC Topic 715, *Compensation – Retirement Benefits*, to require employers that present a measure of operating income in their statements of operations to include only the service cost component of net periodic pension cost and net periodic postretirement benefit cost in operating expenses (together with other employee compensation costs). The other components of net benefit cost, including amortization of prior service cost/credit and settlement and curtailment effects, are to be included in nonoperating expenses. Employers are required to include all other components of net benefit cost in a separate line item(s). The line item(s) in which the components of net benefit cost other than the service cost are included need to be identified as such on the income statement or in the disclosures. The standard also stipulates that only the service cost component of net benefit cost is eligible for capitalization. This guidance is effective for the Corporation as of July 1, 2019, with early adoption permitted. Early adoption was elected and the impact of the early adoption is presented in note 10.

From time to time, new accounting guidance is issued by the FASB or other standard setting bodies that is adopted by the Corporation as of the effective date or, in some cases where early adoption is permitted, in advance of the effective date. The Corporation has assessed the recently issued guidance that is not yet effective and, unless otherwise indicated above, believes the new guidance will not have a material impact on the Corporation's consolidated financial position, results of operations, or cash flows.

Self-insurance trust funds include amounts held by the Maryland Medicine Comprehensive Insurance Program (MMCIP) for payment of malpractice claims. These assets consist primarily of stocks, fixed-income corporate obligations, and alternative investments. MMCIP is a funding mechanism for the Corporation's malpractice insurance program. As MMCIP is not an insurance provider, transactions with MMCIP are recorded under the deposit method of accounting. Accordingly, the Corporation accounts for its participation in MMCIP by carrying limited-use assets representing the amount of funds contributed to MMCIP and recording a liability for claims, which is included in other current and other long-term liabilities in the accompanying consolidated balance sheets.

The Corporation's Series 2007A and 2008D-E Bonds are variable rate demand bonds requiring remarketing agents to purchase and remarket any bonds tendered before the stated maturity date. The reimbursement obligations with respect to the letters of credit are evidenced and secured by the respective bonds. To provide liquidity support for the timely payment of any bonds that are not successfully remarketed, the Corporation has entered into letter-of-credit agreements with three banking institutions. These agreements have terms that expire in 2020 through 2022. If the bonds are not successfully remarketed, the Corporation is required to pay an interest rate specified in the letter-of-credit agreement, and the principal repayment of bonds may be accelerated to require repayment in periods ranging from 20 to 60 months from the date of the failed remarketing. The Corporation has reflected the amount of its long-term debt that is subject to these short-term remarketing arrangements as a separate component of current liabilities in its consolidated balance sheets. In the event that bonds are not remarketed, the Corporation maintains available letters of credit and has the ability to access other sources to obtain the necessary liquidity to comply with accelerated repayment terms. All variable rate demand bonds were successfully remarketed as of June 30, 2018.

The following table reflects the mandatory redemptions and required repayment terms for the years ended June 30 of the Corporation's debt obligations in the event that the put options associated with variable rate

On January 1, 2013, in accordance with ASC Topic 815, *Derivatives and Hedging*, the Corporation elected to discontinue the cash flow hedging relationship for Swap #8. As of that date, the accumulated losses included in unrestricted net assets will be reclassified into earnings over the life of the Series 2007 bonds. For the years ended June 30, 2018 and 2017, \$1,668,000 and \$1,716,000, respectively, was reclassified from other changes in net assets into change in fair value of undesignated interest rate swaps. The accumulated losses included in unrestricted net assets were \$16,266,000 and \$17,934,000 at June 30, 2018 and 2017, respectively.

The Corporation recorded a net nonoperating gain on changes in the fair value of nonqualifying interest rate swaps of \$43,071,000 and \$76,797,000 for the years ended June 30, 2018 and 2017, respectively.

The swap agreements are included in the consolidated balance sheets at their fair value of \$149,789,000 and \$194,524,000 as of June 30, 2018 and 2017, respectively, an amount that is based on observable inputs other than quoted market prices in active markets for identical liabilities (Level 2 in the fair value hierarchy).

The Corporation is subject to a collateral posting requirement with two of its swap counterparties. Collateral posting requirements are based on the Corporation's long-term debt credit ratings, as well as the net liability position of total interest rate swap agreements outstanding with that counterparty. The amount of such posted collateral was \$80,480,000 and \$115,250,000 at June 30, 2018 and 2017, respectively. As of June 30, 2018 and 2017, the Corporation met its collateral posting requirement through the use of collateralized investments, which were selected and purchased by the Corporation and subsequently transferred to the custody of the swap counterparty. The amount of posted investments that is required to meet the collateral requirement is computed daily, and is accounted for as a component of the Corporation's assets limited as to use on the accompanying consolidated balance sheets as of that date. Any excess investment value is considered a component of the Corporation's unrestricted investment portfolio, and is included in investments on the accompanying consolidated balance sheets as of that date.

For employees not covered under collective-bargaining agreements and employees who are represented by the 1199 SEIU Health Care Workers East – Health Care Workers union (formerly District 1199E-DC, SEIU union and formerly Local No. 63 union), the Plan operates as a cash balance plan. The annual contribution by the Corporation is allocated to individual employee accounts based on years of service and the individual's retirement account. For employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union (formerly Professional Staff Nurses Association union), benefits are based on years of service and average final compensation. On December 31, 2007, the Capital Region Pension Plan was frozen. No further benefit accruals will be made to the Plan. The Plan

freeze substantially reduces annual funding obligations beginning with Plan year 2008. The Corporation's funding policy is to contribute such actuarially determined amounts as necessary to provide assets sufficient to meet the benefits to be paid to the Plan participants and to meet the funding requirements of the Employees Retirement Income Security Act of 1974 (ERISA).

Dimensions Health Corporation Post Retirement Benefit Plans (Capital Region Post Retirement Benefit Plans) – A postretirement health care plan is provided to both salaried and nonsalaried employees who have retired and certain other employees who were eligible to retire prior to July 1, 1995. The plan is contributory for those who retired prior to July 1, 1995, with retiree contributions adjusted annually. Employees who retired on July 1, 1995 and later are eligible to participate in the plan by paying 100% of the premiums without corporate contributions. The Corporation's policy has been to fund this plan on an as needed basis.

A defined postretirement life insurance plan is a noncontributory plan for all eligible retirees prior to July 1, 2001. For employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union, the plan was no longer offered to new retirees as of July 1, 1999. Effective July 1, 2001, the plan was modified to become contributory for the nonunion employees and employees represented by the 1199 SEIU Health Care Workers East – Health Care Workers union who retired prior to July 1, 2001 and for the employees represented by the 1199 SEIU Health Care Workers East – Registered Nurses Chapter union who retired prior to July 1, 1999. The Corporation's policy has been to fund its share of these benefits as they are incurred.

The Corporation recognizes the funded status (i.e., the difference between the fair value of plan assets and projected benefit obligations) of its defined benefit pension plans as an asset or liability in its consolidated balance sheets. The Corporation recognizes changes in the funded status in the year in which the changes occur as changes in unrestricted net assets. All defined benefit pension plans use a June 30 measurement date.

Service cost is included as a component of fringe benefits, which is recorded as salaries, wages, and benefits in the accompanying consolidated statements of operations. The Corporation elected to use the practical expedient as of July 1, 2016. This election resulted in a decrease in operating expenses and increase in other nonoperating losses, net of \$24,488,000 in the consolidated statement of operations for the year ended June 30, 2017.

The investment policies of the Corporation's pension plans incorporate asset allocation and investment strategies designed to earn superior returns on plan assets consistent with reasonable and prudent levels of risk. Investments are diversified across classes, sectors, and manager style to minimize the risk of loss. The Corporation uses investment managers specializing in each asset category, and regularly monitors performance and compliance with investment guidelines. In developing the expected

long-term rate of return on assets assumption, the Corporation considers the current level of expected returns on risk-free investments, the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected return for each asset class is then weighted based on the target allocation to develop the expected long-term rate of return on assets assumption for the portfolio.

The Corporation's pension plans' target allocation and weighted average asset allocations at the measurement date of June 30, 2018 and 2017, by asset category, are as follows:

	Target	Percentage of plan assets as of June 30

### (11) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are restricted primarily for the following purposes at June 30 (in thousands):

	 2018	2017

Capital Region	\$ 424,034	_

Net assets were released from donor restrictions during the years ended June 30, 2018 and 2017 by expending funds satisfying the restricted purposes or by occurrence of other events specified by donors as follows (in thousands):

	 2018	2017
Purchases of equipment and construction costs	\$ 3,484	33,038
Research, education, uncompensated care, and other	 3,956	2,868
	\$ 7,440	35,906

Permanently restricted net assets consist primarily of gifts to be held in perpetuity, the income from which may be used to fund the operations of the Corporation.

The Corporation's endowments consist of donor-restricted funds established for a variety of purposes. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

### (a) Interpretation of Relevant Law

The Corporation has interpreted the Maryland Uniform Prudent Management of Institutional Funds Act (MUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Corporation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by MUPMIFA. In accordance with MUPMIFA, the Corporation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Corporation and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Corporation
- (7) The investment policies of the Corporation.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

Endowment net assets are as follows (in thousands):

		June 30, 2018			
	-	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds	\$	38	16,124	44,209	60,371
	_		June 3	80, 2017	
	-	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds	\$	_	13,335	38,510	51,845

#### (b) Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or MUPMIFA requires the Corporation to retain as a fund of perpetual duration. The Corporation does not have any donor-restricted endowment funds that are below the level that the donor or MUPMIFA requires.

### (c) Investment Strategies

The Corporation has adopted policies for corporate investments, including endowment assets that seek to maximize risk-adjusted returns with preservation of principal. Endowment assets include those assets of donor-restricted funds that the Corporation must hold in perpetuity or for a donor-specified period(s). The endowment assets are invested in a manner that is intended to hold a mix of investment assets designed to meet the objectives of the account. The Corporation expects its endowment funds, over time, to provide an average rate of return that generates earnings to achieve the endowment purpose.

To satisfy its long-term rate-of-return objectives, the Corporation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Corporation employs a diversified asset allocation structure to achieve its long-term return objectives within prudent risk constraints.

The Corporation monitors the endowment funds' returns and appropriates average returns for use. In establishing this practice, the Corporation considered the long-term expected return on its endowment. This is consistent with the Corporation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

The Prince George's Hospital Center Foundation, Inc.; the Laurel Regional Hospital Auxiliary, Inc.; and the Laurel Regional Hospital Foundation, Inc. were established to solicit contributions from the general public solely for the funding of capital acquisitions and operations of the associated Capital Region hospitals. Capital Region does not have control over the policies or decisions of these entities.

### (15) Insurance

The Corporation maintains self-insurance programs for professional and general liability risks, employee health, employee long-term disability, and workers' compensation. Estimated liabilities have been recorded based on actuarial estimation of reported and incurred but not reported claims. The accrued liabilities for these programs as of June 30, 2018 and 2017 were as follows (in thousands):

	 2018	2017
Professional and general malpractice liabilities	\$ 290,306	234,569

Less current portion	 (73,226)	(71,832)
	\$ 279,117	223,524

The Corporation provides for and funds the present value of the costs for professional and general liability claims and insurance coverage related to the projected liability from asserted and unasserted incidents, which the Corporation believes may ultimately result in a loss. These accrued malpractice losses are discounted using a discount rate of 2.5%. In management's opinion, these accruals provide an adequate and appropriate loss reserve. The professional and general malpractice liabilities presented above include \$168,452,000 and \$144,313,000 as of June 30, 2018 and 2017, respectively, for which related insurance receivables have been recorded within other assets on the accompanying consolidated balance sheets.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

The Corporation and each of its affiliates are self-insured for professional and general liability claims up to the limits of \$1.0 million on individual claims and \$3.0 million in the aggregate on an annual basis. For amounts in excess of these limits, the risk of loss has been transferred to Terrapin, an unconsolidated joint venture. Terrapin provides insurance for claims in excess of \$1 million individually and \$3 million in the aggregate up to \$150 million individually and \$150 million in the aggregate under claims made policies between the Corporation and Terrapin. For claims in excess of Terrapin's coverage limits, if any, the Corporation retains the risk of loss.

As discussed in note 4, Terrapin is a joint venture corporation in which a 50% equity interest is owned by the Corporation and a 50% equity interest is owned by Faculty Physicians, Inc.

Total malpractice insurance expense for the Corporation during the years ended June 30, 2018 and 2017 was approximately \$52,652,000 and \$36,367,000, respectively.

#### (16) Business and Credit Concentrations

The Corporation provides healthcare services through its inpatient and outpatient care facilities located in the State of Maryland. The Corporation generally does not require collateral or other security in extending credit; however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits receivable under their health insurance programs, plans, or policies (e.g., Medicare, Medicaid, Blue Cross, workers' compensation, health maintenance organizations (HMOs), and commercial insurance policies).

The Corporation maintains cash accounts with highly rated financial institutions, which generally exceed federally insured limits. The Corporation has not experienced any losses from maintaining cash accounts in excess of federally insured limits, and as such, management does not believe the Corporation is subject to any significant credit risks related to this practice.

The Corporation had gross receivables from patients and third-party payors as follows at June 30:

### (17) Certain Significant Risks and Uncertainties

The Corporation provides general acute healthcare services in the state of Maryland. The Corporation and other healthcare providers in Maryland are subject to certain inherent risks, including the following:

- Dependence on revenues derived from reimbursement by the federal Medicare and state Medicaid programs;
- Regulation of hospital rates by the State of Maryland Health Services Cost Review Commission;
- Government regulation, government budgetary constraints, and proposed legislative and regulatory changes; and
- Lawsuits alleging malpractice and related claims.

Such inherent risks require the use of certain management estimates in the preparation of the Corporation's consolidated financial statements, and it is reasonably possible that a change in such estimates may occur.

The Medicare and state Medicaid reimbursement programs represent a substantial portion of the Corporation's revenues, and the Corporation's operations are subject to a variety of other federal, state, and local regulatory requirements. Failure to maintain required regulatory approvals and licenses and/or changes in such regulatory requirements could have a significant adverse effect on the Corporation.

Changes in federal and state reimbursement funding mechanisms and related government budgetary constraints could have a significant adverse effect on the Corporation.

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. The Corporation's compliance with these laws and regulations can be subject to periodic governmental review and interpretation, which can result in regulatory action unknown or unasserted at this time. Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the ordinary course of business, none of which, in the opinion of management, are expected to result in losses in excess of insurance limits or have a materially adverse effect on the Corporation's financial position.

Notes to Consolidated Financial Statements
June 30, 2018 and 2017

The federal government and many states have aggressively increased enforcement under Medicare and Medicaid antifraud and abuse laws and physician self-referral laws (STARK law and regulation). Recent federal initiatives have prompted a national review of federally funded healthcare programs. In addition, the federal government and many states have implemented programs to audit and recover potential overpayments to providers from the Medicare and Medicaid programs. The Corporation has implemented a compliance program to monitor conformance with applicable laws and regulations, but the possibility of future government review and enforcement action exists.

### (18) Maryland Health Services Cost Review Commission

Effective July 1, 2013, the Health System and the Health Services Cost Review Commission (HSCRC) agreed to implement the Global Budget Revenue (GBR) methodology for the following hospitals: Medical Center, ROI, Midtown, Baltimore Washington, Charles Regional, St. Joseph, Shore Emergency Center, Upper Chesapeake, and Capital Region. The agreements will continue each year and on July 1 of each year thereafter; the agreements will renew for a one-year period unless it is canceled by the HSCRC or by the Corporation. The agreements were in place for the years ended June 30, 2018 and 2017. The GBR model is a revenue constraint and quality improvement system designed by the HSCRC to provide hospitals with strong financial incentives to manage their resources efficiently and effectively in order to slow the rate of increase in healthcare costs and improve healthcare delivery processes and outcomes. The GBR model is consistent with the Corporation's mission to provide the highest value of care possible to its patients and the communities it serves.

The GBR agreements establish a prospective, fixed revenue base "GBR cap" for the upcoming year. This includes both inpatient and outpatient regulated services. Under GBR, a hospital's revenue for all HSCRC regulated services is predetermined for the upcoming year, regardless of changes in volume, service mix intensity, or mix of inpatient or outpatient services that occurred during the year. The GBR agreement allows the Corporation to adjust unit rates, within certain limits, to achieve the overall revenue base for the Corporation at year-end. Any overcharge or undercharge versus the GBR cap is prospectively added to the subsequent year's GBR cap. Although the GBR cap does not adjust for changes in volume or service mix, the GBR cap is adjusted annually for inflation, and for changes in payor mix and uncompensated care. The Corporation will receive an annual adjustment to its cap for the change in population in the Corporation's service areas. GBR is designed to encourage hospitals to operate efficiently by reducing utilization and managing patients in the appropriate care delivery setting. The HSCRC also may impose various other revenue adjustments, which could be significant in the future.

For the years ended June 30, 2018 and 2017, UM Memorial Hospital, UM Dorchester Hospital, and UM Chester River continued their participation in Total Patient Revenue (TPR) agreements with the HSCRC. The TPR agreements establish an approved aggregate inpatient and outpatient revenue for regulated services to provide care for the patient population in the geographic region without regard for patient acuity or volumes.

The HSCRC utilizes a bad debt pool into which each of the regulated hospitals in Maryland participates. The funds in the bad debt pool are distributed to the hospitals that exceed the state average based upon the amount of uncompensated care delivered to patients during the year. For the years ended June 30, 2018 and 2017, the Corporation recognized a net distribution from the pool of approximately \$14,015,000 and \$8,345,000, respectively, which is recorded as net patient service revenue.
